

On the occasion of celebration of 150 years of the institution of the C&AG of India, the Indian Audit and Accounts Department was looking for a logo which would convey both its traditional values and a dynamic and progressive outlook.

An all-India competition was held and entries were invited from professionals, amateurs, individuals and firms. A total of 142 entries were received and the final selection is a design submitted by Shivam Dua, a young student pursuing his B. Tech from Vaish College of Engineering, Rohtak. His design for the logo was selected as it best represented and core values of the Indian Audit & Accounts Department.

The circular shape of the new logo denotes completeness and wholeness which represents the Independent nature of the Audit Department.

The Shield in the middle represents the Badge of professional expertise which we so proudly wear. The Scales stand for Balance, Equity and Justice in auditing. The Book denotes the knowledge which the auditors pursue all the time to be a step ahead of all the professional challenges facing them.

The green foliage at the base of the design and the grain sheaves symbolizes Growth-the Department's commitment to intellectual professional growth. It also gives a message that the Indian Audit and Accounts Department is a forward looking department which while being rooted to traditional values is dynamic enough to face the challenges thrown in the ever-changing environment.
