Office Order

Subject: Exploration and Planning of Third-Party Interventions for Enhancing Audit Quality

A two-day workshop to discuss the strategies and way forward for implementation of the Key Focus Areas (KFA) identified by CAG through the KPI Implementation Framework, was held on 3rd & 4th July 2025. One of the decisions taken involves action to "Exploring and Planning of Third-Party Interventions for Enhancing Audit Quality".

1.1 All Group Officers are hereby directed to actively explore, and plan effective third-party interventions aimed at significantly improving the quality of the audit process and reporting within their respective Groups.

1.2 As a starting point for this initiative, a PowerPoint presentation detailing "Drone solutions for various use cases such as physical verification, onsite monitoring of progress of work, High-resolution mapping, etc.," has been shared from PAG/Sectt. with all Group Officers. This presentation is intended to stimulate ideas and discussions on potential technological interventions.

1.3 Group Officers are required to submit necessary proposals from their respective wings outlining potential third-party interventions and their proposed implementation.

1.4 This crucial issue will also be thoroughly examined and discussed in the upcoming quarterly meeting of Group Officers with the Principal Accountant General (PAG).

A proactive engagement in this matter is highly anticipated to foster innovation and efficiency in audit operations.
