

Chapter-8
Conclusion

CHAPTER 8

Conclusion

The District Planning Committee had not prepared integrated district Plan to cover all the activities for overall development of the district. The district was short of health centres, minimum infrastructure, doctors, etc. The funds amounting to ₹ 83.06 lakh allocated for bridge courses for out of school children during the period 2009-12 were not utilized by the DPC. Audit observed deficiencies in availability of infrastructure/facilities in Primary/Upper Primary Schools. Fifty villages were not provided a minimum of 40 litres per capita per day of drinking water. Sewerage facilities were provided in three towns viz. Gurgaon, Haily Mandi and Sohna and were not provided in two towns viz. Pataudi and Farukh Nagar. Solid Waste Treatment Plant was not provided in Sohna town. The district has vast network of all weather roads and all the villages were connected with metallic roads. However, conditions of roads in 11 villages out of physically verified 21 villages were unsatisfactory due to water logging. There were deficiencies in the public distribution system such as non-detection of bogus ration cards, delays in distribution of foodgrains to beneficiaries, lack of supervision, etc. There was shortage of staff in various cadres, acute shortage of weaponry and vehicles and residential accommodations for the police personnel. All the services as envisaged at e-Disha centre were not being provided and the citizens had to visit different places. As a result, the citizens of the district remained deprived of benefits under e-governance.
