Erosion threatens historic Arimora IB

(The Assam Tribune)

KOHORA, April 11 – The historic Arimora Forest Inspection Bungalow (IB) near the bank of the Brahmaputra deep inside the KNP, which happens to be very popular with dignitaries coming to enjoy the scenic beauty of Kaziranga, is on the verge of extinction due to massive erosion caused by the mighty river, thanks to the indifferent attitude of both the Union as well as State governments.

Right from the Central Ministers under various regimes to the Chief Minister of Assam, everybody visited Arimora Forest IB only to express mere words of concern towards the problem caused by erosion which has in fact washed away a vast virgin grassland area of KNP (in Arimora) considered to be an ideal habitat of the wildlife including the rhino, elephant, tiger etc.

Erosion had washed away more than 30 sq km area of the National Park in Kaziranga. Arimora Forest IB which was 100 meters away earlier, is now almost on the bank with Brahmaputra flowing just 28 metres away from the inspection bungalow. On the other side of the IB there is a small Shiva temple constructed by the department for the forest guards to worship, which is now just on the edge of the bank . “Only the Shiva temple is somehow saving this IB,” said a forest guard to this correspondent while visiting Arimora.

“Arimora has already lost its past glory . So many VIPs used to come here only to give false assurances with regard to protection of Arimora,” said another forest staff. Last year the Union Environment and Forest Minister Jairam Ramesh too visited Arimora to note the situation.

Though the government has announced a scheme (amounting to Rs 177 crore and 56 lakhs) for protection against erosion in Kaziranga, practically nothing concrete can be seen on the ground in Arimora. The porcupines were erected earlier to divert the water current and thus control the erosion but more needs to be done . Sources said that though porcupines could be effective in terms of diverting the current of water thereby reducing the impact of the force created by the current, but the bank of the river Brahmaputra needs to be protected by stone barrier so that not much damage could be done on the soil surface on the bank.

The director of the KNP, Surajit Dutta said that something would be done soon to get rid of the problem. He said that he had already drawn the attention of the Union Government with regard to this situation in New Delhi and was quite hopeful that some measures would be adopted to solve it. Now time is simply running out. If the government is really serious about this problem, then Arimora must be given first priority in terms of sanctioning of funds and other resources.

Extracts of Correspondences made by Park authorities

Initiator	Context	Fact mentioned in the letter
Director, KNP	Reply to Central Empowered Committee constituted by the Supreme Court	<p>....Another eviction drive was initiated in Bholakata Chapori near Biswanathghat on 29-7-99 and 30-7-99 but had to be abandoned after demolition of 128 huts due to hue and cry raised by organized groups with vested interest. The aggrieved petitioners then filed writ petition in Gauhati High Court in June'99. In November'02, the Court ordered for de-novo determination of the rights of the petitioners.....pertinent to mention here that these cases were duly heard by the Collector and disposed off with no right or title found in favour of the petitioners.two more writ petitions were registered in 1999 & 2000 in which the Court had ordered to maintain status quo. The petitioners in this case were the same group whose objections were disposed off by the Collector finding no right, title or privilege in favour of the petitioners.</p> <p>It is also a fact that some of the poachers take shelter in the encroached areas of the sixth addition. Some criminals also take shelter in the chaporis after committing crime due to isolated location.</p> <p>....As of now – protracted litigation, inappropriate infrastructure and inadequate man-power together with perpetual fiscal deficit are the stumbling blocks in eliminating pressure of encroachment from the addition areas of Kaziranga.</p>
	Letter to CCF, WL on Court cases on sixth addition dated September 2006	<p>....The presence of these encroachers is not only source of harbouring poachers on occasion but transmission of contagious diseases from domestic cattle to wild animals cannot be ruled out, which will cause wide spread havoc and criticised nationally and internationally.....</p>
	Letter to CCF, WL on eviction drive in sixth addition dated January 2001	<p>I am of the strong opinion that our last attempt of eviction failed miserably due to indirect political interference.....inadequate arrangement to control gathering of miscreants/people from the adjoining areas and <i>chaporis</i> due to lack of river patrol etc and in case this year again we fail on some count, this area may go beyond retrieval subsequently due to one reason or the other.</p>
DFO, KNP	Responding to news item "40,000 illegal settlers in Kaziranga" dated January 2001	<p>....The eviction operation suffered a set-back as the joint party with Magistrate had to retreat when faced with stiff resistance from the encroachers. It is unfortunate that Hon'ble Minister.....who camped at Tezpur instigated the religious minority community to offer resistance to eviction operation. On 31-7-99, thousands of people gathered at Biswanath Ghat coming far off places like Moirabari, Hojai, Nagaon, Singri etc and joined hands with the encroachers in resisting eviction. In the evening the Hon'ble Minister addressed the gathering and expressed his pleasure in making the eviction operation a failure.</p> <p>.....Court also issued stay order in eviction. Taking advantage of stay order and strong political backing, thousands of people of suspected nationality have sneaked into the different <i>chaporis</i>.....</p> <p>It is also worth mention that the encroachers intentionally name the <i>chaporis</i> by the name of the adjacent revenue villages to confuse the Court to claim that forest department evicted people from revenue villages....</p> <p>I was given to understand that the <i>chaporis</i> have become safe haven for the criminals. The criminals take shelter in the <i>chaporis</i> after committing the crime to evade arrest.</p>
