

3. *Gist of Recommendations*

- *Mechanical Directorate of RB needs to establish a system of effective monitoring to ensure compliance with the statutory obligations relating to air, water and noise pollution in workshops, sheds and production units. Provision of control equipment and keeping them in working condition needs to be given due importance;*
- *Workshops, sheds and production units need to take effective steps for proper disposal of ETP sludge as per the guidelines issued by the SPCB/CPCB in order to prevent contamination of ground water;*
- *All workshops, sheds and production units need to frame a well defined target for implementing energy conservation measures. Electrical Directorate of RB needs to closely monitor the achievement of target and analyse the impact of shortfall in achieving target.*
- *A time bound action plan needs to be drawn for harnessing renewable energy such as wind and solar energy so as to achieve the 2020 vision of IR;*
- *Mechanical Directorate of RB need to effectively ensure that its instructions on setting up of Water Recycling Plants and Rain Water Harvesting structures are complied in a time bound manner;*
- *Mechanical Directorate and Stores Directorate of RB needs to establish a monitoring mechanism for strict observance of statutory provisions regarding proper accounting, handling and disposal of hazardous wastes;*
- *Health Directorate of RB needs to ensure maintenance of medical records of the workers of all workshops, sheds and production units.*
