## **Preface**

This Report of the Comptroller and Auditor General of India is prepared for submission to the Governor under Article 151 (2) of the Constitution of India for being laid before the State Legislature.

The Report contains significant results of the Performance Audit on ‘Direct Benefit Transfer of Social Security Pension Schemes’ under the Government of Kerala from 2017-18 to 2020-21.

The instances mentioned in this Report are those which came into notice in the course of audit during March to December 2021.

Audit has been conducted in conformity with the Auditing Standards issued by the Comptroller and Auditor General of India.

## Highlights

### Highlights

### Direct Benefit Transfer of Social Security Pension Schemes in Government of Kerala

#### Why CAG did this Audit

Direct Benefit Transfer (DBT) is an enterprise by the Government of India to confirm timely and appropriate benefits directly to the beneficiaries. It symbolises a remarkable change in the model for delivering benefits by removing intermediary levels, leakages and pilferages. Government of Kerala implemented DBT in the State for various Schemes including Social Security Pension (SSP) Schemes. Given that SSPs are being distributed to the most deprived elderly/ widowed/ disabled people in society who have no other income and involves the highest expenditure among the DBT Schemes in the State, this Performance Audit attempted to examine whether (i) The DBT programme of the State has been effective in providing timely and appropriate pensionary benefits directly to the beneficiaries; and (ii) The Sevana Pension software (web based application for the execution of Social Security pensionary benefits) has been effective in bringing accuracy, transparency and effectiveness to the process of Direct Benefit Transfer.

#### What CAG recommends

1. The entire system of DBT may strictly adhere to norms already in place, right from the stage of entry of pension applications in the system to the final disbursement stage, to bring in greater effectiveness;
2. Sevana Pension software may be revamped to automate all activities from receipt of application to the payment and acknowledgment of SSPs, and to enable the User Department to operate it independently from the Developer.

The Government/ Department has generally accepted the recommendations.

#### What CAG found

During the period from 2017-18 to 2020-21, the Government had paid ₹29,622.67 crore as Social Security Pensions (SSPs) to 47.97 lakh beneficiaries in the State.

There were laxities in the application stage, its verification and approval at the Local Self Government Institutions (LSGIs). Two different pensions (except disability pension) were irregularly approved to single beneficiaries and pensions were often approved without production of mandatory certificates due to absence of input controls in the Scheme Management Software (Sevana Pension) and proper monitoring by the Secretaries of LSGIs. Discrepancies in beneficiary addition were also noticed, indicative of lack of control in the system. A joint beneficiary survey disclosed 20 *per cent* ineligible beneficiaries among the sample.

The chief fund raiser and co-ordinator of SSP Schemes, viz. Kerala Social Security Pension Limited (KSSPL), is not maintaining the accounts properly and has not done the reconciliation of accounts during the entire audit period. KSSPL's activities in fund raising and utilisation has not been transparent.

SSPs were disbursed in batches of months and not monthly, which defeated the very purpose of timely disbursement of SSP. Eligible beneficiaries were denied pension due to erroneous bill processing. The payments in cash through Primary Agricultural Credit Societies (PACS) in Direct to Home mode did not qualify as Direct Benefit Transfer, as it was not done directly to beneficiaries and did not minimise intermediary levels. There were instances of irregular payment of widow pension and disbursement of same pension more than once to a beneficiary.

Substantial amount of funds were transferred to PACS on account of deceased beneficiaries who were already reported as deceased, resulting in unnecessary liability of interest and pointing towards possible fraud. Government Servants and Service Pensioners were irregularly granted SSPs. Moreover, even after their suspension from the list, pension was paid to ineligible beneficiaries which indicates poor verification and monitoring mechanism in the Department concerned. Performance Audit Supervisors were not deployed in any of the LSGIs and the State DBT Cell was not performing as prescribed in the guidelines.

There was lack of planning of the automation process as evident in the absence of system design documents and lack of documentation. There were control lapses in the Sevana Pension software, from beneficiary addition to disbursement of SSPs. The integrity and consistency of the data also could not be guaranteed.

Information Kerala Mission (IKM), the developer of Sevana Pension software, continued to run it even after its implementation rather than the User Department. The software could not generate any of the vital reports. Even IKM was generating the reports through the backend by Stored Procedures, which required frequent modifications as well. The User Department was not able to monitor either the user activities at LSGIs or the activities performed by IKM. Further, there was no effective mechanism for ensuring the receipt of the SSPs by the intended recipient.

# **Key Facts**

## Key Facts

### Direct Benefit Transfer of Social Security Pension Schemes

Key facts	
Direct Benefit Transfer (DBT)	Aimed at reforming Government delivery system by re-engineering the existing process in welfare schemes for transparent and timely transfer of funds to the right persons.
Social Security Pension Schemes (SSP Schemes)	<p>Five Social Security Pensions (SSPs) under DBT:</p> <ul style="list-style-type: none"> <li>• Indira Gandhi National Old Age Pension (IGNOAP).</li> <li>• Indira Gandhi National Widow Pension (IGNWP).</li> <li>• Indira Gandhi National Disability Pension (IGNDP).</li> <li>• Pension for Unmarried Women above 50 years (UMWP).</li> <li>• Agriculture Labour Pension (ALP).</li> </ul> <p>The Government of India (GoI) funding is also available for first three Pensions.</p>
DBT in SSP Schemes	<ul style="list-style-type: none"> <li>• The responsibility of implementation of SSP Schemes is vested with the Local Self Government Department.</li> <li>• The Directorate of <i>Panchayats</i> is the nodal office for SSP Schemes.</li> <li>• The DBT Cell under Director of <i>Panchayats</i> co-ordinates all the activities relating to SSP Schemes.</li> <li>• Beneficiary management is done at Local Self Government Institutions.</li> <li>• Funds are sanctioned by Finance Department and periodic disbursement is done by DBT Cell in the Directorate of <i>Panchayats</i>. These activities are managed using Sevana Pension software.</li> <li>• The Government had paid ₹29622.67 crore as Social Security Pensions (SSPs) to 47.97 lakh beneficiaries in the State during 2017-18 to 2020-21.</li> <li>• Of these 48 lakh beneficiaries, 50.79 <i>per cent</i> receive pension directly to their bank accounts and 49.21 <i>per cent</i> receive pension, in cash, at their home through Primary Agricultural Credit Societies (PACS).</li> </ul>

## Implementation and Management of Direct Benefit Transfer in SSP Schemes

### Findings

Subject	Findings
Performance of State DBT Cell in the State (Paragraph 2.1; Page 10)	<ul style="list-style-type: none"> <li>State DBT Cell is not functioning as envisaged by GoI.</li> </ul>
Deficiencies in processing of applications (Paragraphs 2.2; Page 11, 2.3; Page 13 and 2.4; Page 14)	<ul style="list-style-type: none"> <li>Initial applications are not being recorded in the system.</li> <li>Verification process and its report lacks clarity.</li> <li>There are inordinate delay in approval of beneficiaries.</li> </ul>
Irregular approval of beneficiaries (Paragraphs 2.5.1 to 2.5.6; Page 15 to 18 and 2.6; Page 19)	<ul style="list-style-type: none"> <li>More than one SSPs granted to single beneficiary.</li> <li>Beneficiaries approved without mandatory certificates.</li> <li>Beneficiaries added even without submitting an application.</li> <li>Service Pensioners and Government employees received SSPs (₹39.27 crore).</li> </ul>
Poor accounting practices (Paragraphs 2.7.1 to 2.7.4; Page 21 to 25)	<ul style="list-style-type: none"> <li>Non-maintenance of books of accounts at Kerala Social Security Pension Ltd. (KSSPL) and at DBT Cell in Directorate of <i>Panchayats</i>.</li> <li>Excess loans raised by KSSPL.</li> <li>KSSPL and the Directorate of <i>Panchayats</i> have conflicting figures due to non-reconciliation of accounts.</li> </ul>
Erroneous bill processing resulted in irregular pension payments (Paragraphs 2.9; Page 26, 2.13; Page 31, 2.14; Page 33)	<ul style="list-style-type: none"> <li>SSP payments were denied to more than 25,000 eligible beneficiaries.</li> <li>Payment made to suspended beneficiaries, which has not been recovered (₹4.08 crore).</li> <li>Pension at enhanced rate disbursed to beneficiaries before attaining 75 years of age (₹10.11 crore).</li> </ul>
Direct to Home payment by agents (Paragraph 2.10; Page 27)	<ul style="list-style-type: none"> <li>48.31 <i>per cent</i> of total amount of SSPs for the years from 2017-18 to 2020-21 were disbursed through agents at the home of the beneficiaries through Primary Agricultural Credit Societies (PACS).</li> <li>The intermediary levels involved hence do not qualify as Direct Benefit Transfer.</li> </ul>
Irregular disbursement of SSPs (Paragraphs 2.11; Page 28, 2.12; Page 30 and 2.15; Page 33)	<ul style="list-style-type: none"> <li>Irregular disbursement of IGNWP to legally divorced, deserted and re-married beneficiaries (₹180.16 lakh).</li> <li>Irregular transfer of funds to PACS on account of deceased beneficiaries.</li> </ul>

## Effectiveness of Sevana Pension Software

<b>Key facts</b>	
Sevana Pension software	The software was developed for the automation of disbursement of SSPs. It was developed by Information Kerala Mission (IKM) and was intended to streamline the disbursement of SSPs with a transparent mechanism.

### Findings

<b>Subject</b>	<b>Findings</b>
Lack of preparedness in Automation (Paragraphs 3.1; Page 40 and 3.2; Page 40)	<ul style="list-style-type: none"> <li>• No documents available in respect of the initiation of automation of SSP Schemes.</li> <li>• IKM had not prepared system design documents such as User Requirement Specification and System Requirement Specifications.</li> </ul>
Lack of data validation during data entry (Paragraphs 3.4; Page 42 and 3.5; Page 42)	<ul style="list-style-type: none"> <li>• All eligibility criteria are not mapped in the software.</li> <li>• The software lacks basic data entry validation.</li> </ul>
Lack of Information Security and Monitoring (Paragraphs 3.6.1 to 3.6.4; Page 44 to 46)	<ul style="list-style-type: none"> <li>• Web application is hosted without clearing Security Audit.</li> <li>• Mandatory periodic security audit is not done.</li> <li>• Instances of sharing of credentials resulted in irregular addition of beneficiaries.</li> </ul>
Inconsistencies in Master Data Files (Paragraph 3.6.5; Page 47)	<ul style="list-style-type: none"> <li>• Inconsistent data in master files which prevent accurate calculation, monitoring of user activities, etc.</li> </ul>
Improper involvement of Developer (Paragraphs 3.7; Page 49)	<ul style="list-style-type: none"> <li>• IKM continues to run the application.</li> <li>• Bill Generation is done by IKM at back end.</li> </ul>
Discrepancies in outputs (Paragraph 3.8; Page 50)	<ul style="list-style-type: none"> <li>• Essential reports generated from the software shows erroneous figures, which forced the User Department to depend on the developer.</li> </ul>
Susceptibility of Sevana Pension software to fraud (Paragraph 3.9; Page 53)	<ul style="list-style-type: none"> <li>• Beneficiary-wise acknowledgement of receipt of amount is not recorded in the software.</li> <li>• Absence of such system make the software susceptible to fraud.</li> </ul>

# **Chapter – I**

## **Introduction**

## CHAPTER – I

### Introduction

## 1 Introduction

### 1.1 Direct Benefit Transfer

Direct Benefit Transfer (DBT) is a major reform initiative of the Government of India (GoI) to ensure better and timely delivery of benefits to the people. This marks a paradigm shift in the process of delivering Government benefits like wage payments, fuel subsidies, food grain subsidies, etc. directly into the bank accounts of beneficiaries, removing leakages and enhancing financial inclusion.

The Government of Kerala (GoK) had introduced the DBT system for Social Security Pensions (SSPs) from May 2015, crediting the amounts directly to the Bank/ Post Office Savings Accounts of beneficiaries, through Electronic Money Order and Direct to Home (DTH) of the beneficiaries. At present, there are two modes of payment:

1. Crediting the amount to Bank account of the beneficiaries, and
2. Disbursement of pension in DTH mode through Primary Agricultural Credit Societies (PACS).

The Government of India issued directions<sup>1</sup> to set up DBT Cell in the State which would act as a focal point for implementation of DBT schemes of both Government of India and States. In Kerala, State DBT Cell is constituted<sup>2</sup> with Additional Chief Secretary (Finance) as Chairman.

Among the DBT schemes in the State, the expenditure by the State Government is the highest in respect of SSPs. The responsibility for implementation of Social Security Pension Schemes (SSP Schemes), including those under National Social Assistance Programme (NSAP) in the State, are vested with the Local Self Government Department (LSGD). The Director of *Panchayats* is the Nodal Officer for SSPs. The DBT Cell functioning under the Director of *Panchayats* co-ordinates all the activities relating to the SSP Schemes. The Schemes are managed using Sevana Pension software developed by the Information Kerala Mission (IKM). The software is deployed in the Local Self Government Institutions (LSGIs) within the State of Kerala. Applications for SSPs are submitted in the LSGIs and the initial verification and selection of beneficiaries and their enrolment in Sevana Pension software are carried out by LSGIs.

---

<sup>1</sup> Vide DO No. I-11011/145/2015-DBT-Cab dated 25 May 2016 from Secretary to Government of India.

<sup>2</sup> Government of Kerala vide GO(P) No. 108/2016/ Fin dated 29 July 2016 constituted State DBT Cell in Finance Department.

Periodical disbursement of pension is initiated at the DBT Cell and disbursements are done through Banks and PACS.

The Government of Kerala constituted a wholly owned Government Company, viz. Kerala Social Security Pension Limited (KSSPL), under the Finance Department with the objective of improving the disbursement of various SSPs, including welfare pensions in the State. The State Government had issued orders in June 2018 to transfer credit the KSSPL Account with the funds earmarked in State Budget every year for the purpose. The KSSPL was also allowed by the State Government to raise funds from Public, Public Sector Undertakings (PSUs) and other institutions through suitable financial instruments including deposits and loans to meet the differential funds needed to fulfil the expenditure requirements.

During 2018-19 to 2020-21, KSSPL had availed loans amounting to ₹22,266.66 crore from various entities<sup>3</sup> for the disbursement of SSPs. However, loan amounting to ₹19,472.14 crore was availed by the KSSPL in excess of the requirement for that period. In spite of that, out of the loan amount raised by KSSPL for SSPs, the KSSPL released ₹4,478.85 crore less than what was disbursed by the DBT Cell as SSPs. The KSSPL also incurred expenditure amounting to ₹1,596.34 crore as repayment liabilities on account of the loan raised. The KSSPL has thus not been fiscally prudent, and some of its other deficiencies have also been commented at Paragraphs 2.7.1 to 2.7.4 of this Report.

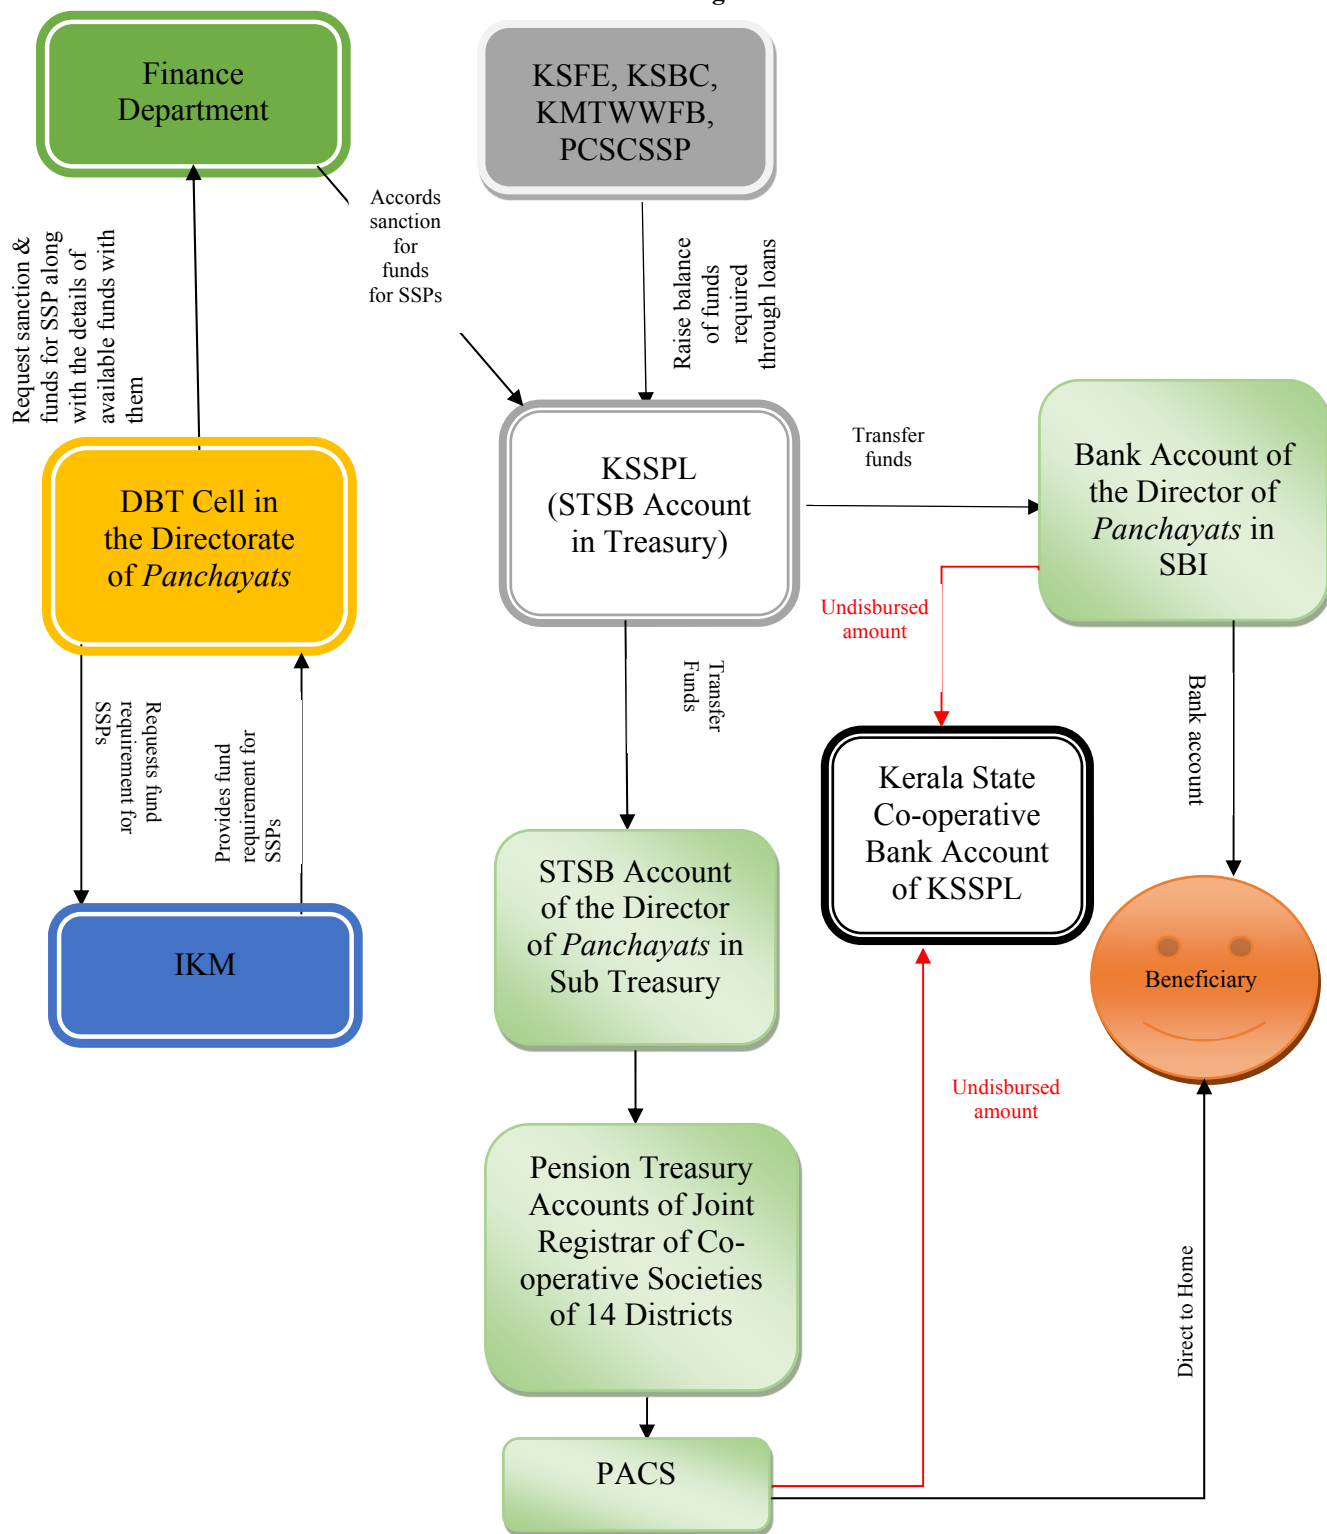

The entire borrowings by KSSPL as above for the periods 2018-19, 2019-20 and 2020-21 have not been reflected in the budget of the State Government for those respective years and hence remained outside the Legislative control. A paragraph on the off-budget borrowings by KSSPL during 2019-20 have already appeared as Paragraph 2.6.2 in the Kerala State Finance Audit Report of the C&AG of India for the year ended 31st March 2020.

The process of fund disbursement for SSPs is depicted below in **Figure 1.1**.

---

<sup>3</sup> Primary Co-operative Societies Consortium for Social Security Pension, Kerala State Financial Enterprises, Kerala State Beverages Corporation and Kerala Motor Transport Workers Welfare Fund Board.

Figure 1.1

The DBT Cell in the Directorate of *Panchayats* communicates the fund requirement of SSPs for a particular month along with the details of available balance funds with them to the Finance Department of the State Government. The Finance Department accords sanction for the entire funds required for the disbursement of SSPs for that month and directs KSSPL to transfer credit the differential funds for meeting the required expenditure to the Bank account and Treasury account maintained by the Director of *Panchayats*. The KSSPL then transfer credits the funds required for disbursement of SSPs to the Bank account of the Director of *Panchayats* maintained in the State Bank of India.

The funds required for disbursement through DTH mode is transfer credited by KSSPL to the Special Treasury Savings Bank Account of the Director of *Panchayats* maintained in the Sub Treasury. The Director of *Panchayats* transfers the amount to the Bank accounts of the beneficiaries and transfer credits the amount to the Pension Treasury Accounts of the Joint Registrar of Co-operative Societies in the 14 Districts for disbursement to DTH beneficiaries through PACS.

The number of beneficiaries under the five SSP Schemes and total amount disbursed between 2017-18 and 2020-21 are as detailed in **Table 1.1** below:

**Table 1.1**

**Details of scheme-wise number of beneficiaries and amount disbursed**

Sl. No.	Name of the Scheme	No. of Beneficiaries				Amount disbursed (₹ in crore)			
		2017-18	2018-19	2019-20	2020-21	2017-18	2018-19	2019-20	2020-21
1	Indira Gandhi National Old Age Pension (IGNOAP)	20,77,492	22,18,254	22,67,911	25,66,332	2,653.54	4,002.32	3,196.81	5,259.09
2	Indira Gandhi National Widow Pension (IGNWP)	12,35,399	12,91,647	12,72,733	13,37,271	1,467.20	2,285.01	1,799.91	2,927.69
3	Agriculture Labour Pension (ALP)	4,66,962	4,59,019	4,06,790	4,15,172	572.83	849.95	589.38	920.49
4	Indira Gandhi National Disability Pension (IGNDP)	3,56,956	3,84,236	3,77,108	3,94,243	432.10	706.07	545.44	882.82
5	Pension for Unmarried Women above 50 years (UMWP)	76,264	81,029	79,980	84,210	92.11	143.57	113.01	183.33
<b>Total</b>		<b>42,13,073</b>	<b>44,34,185</b>	<b>44,04,522</b>	<b>47,97,228</b>	<b>5,217.78</b>	<b>7,986.92</b>	<b>6,244.55</b>	<b>10,173.42</b>
<b>Total Amount disbursed</b>						<b>₹29,622.67 crore</b>			

(Information furnished by DBT Cell)

Of the above five pension schemes, three schemes come under National Social Assistance Programme (NSAP) and are being funded additionally by the State Government. As per the details furnished by the DBT Cell, the number of beneficiaries who are receiving IGNOAP, IGNWP and IGNDP coming under NSAP is 6,88,329. During the period under audit, 50.79 per cent of beneficiaries

are availing DBT in their Bank account and for the remaining 49.21 *per cent* of beneficiaries, the amount was disbursed through the DTH mode.

## 1.2 Application Software

The Sevana Pension software is the web-based application developed by IKM and deployed in the LSGIs within the State of Kerala to automate the internal processes from registration of beneficiaries to disbursement of pension under DBT. The intention was to provide efficient and transparent mechanism in the social security services executed through it in order to improve the effectiveness and service delivery of LSGIs in this sphere. The primary objective of the Sevana Pension software were:

- To streamline the disbursement of social welfare benefits to the poorest of the poor in the society, and
- To provide efficient and transparent mechanism in the delivery of social security services.

The Sevana Pension software manages SSPs in the State of Kerala, which includes registration of beneficiaries and its management at LSGIs, fund estimation, bill generation and Bank payment file generation by IKM for the DBT Cell in the Directorate of *Panchayats*.

The Sevana Pension software was developed in the .NET framework 2.0 with SQL Server 2014 as back-end database. The application is hosted in State Data Centre-2 and is available through internet. LSGIs use KSWAN (Kerala State Wide Area Network), NOFN (National Optical Fibre Network) and BSNL FTTH (Fibre to the Home) for accessing the software.

The Sevana Pension software can be initiated using the link available in 'Welfare Pension' portal (<https://welfarepension.lsgkerala.gov.in>). The portal also contains a 'Reports' page which gives statistical data relating to SSPs and a 'Search' page to view the payment details of a particular beneficiary by giving the Pensioner ID. Since it is a web application available through internet, end users can access it using their personal computers.

## 1.3 Audit Objectives

The broad objectives of this Performance Audit were to assess whether:

1. The DBT programme of the State has been effective in providing timely and appropriate pensionary benefits directly to the beneficiaries; and
2. The Sevana Pension software has been instrumental in bringing accuracy, transparency and effectiveness to the process of DBT.

## 1.4 Sources of Audit Criteria

The following Guidelines, Circulars, Orders, etc. and their provisions were the sources of criteria for this Performance Audit:

- Guidelines of Schemes on process of identification and authentication of beneficiaries and payments,
- Standard Operating Procedures, Handbook on DBT and Guidelines for State DBT Cell issued by DBT Mission,
- Documents, Circulars, Orders, Instructions and Notifications issued by DBT Mission, Central Ministries and State Government,
- Instructions regarding maintenance of database, generation of various reports of IT controls and Government Orders (GOs), Circulars and Guidelines issued by GoK and IKM, Handbook on IT Audit by INTOSAI Working Group on IT Audit (WGITA) and IT Audit Manual issued by CAG of India, and
- General Financial Rules (GFR), 2017.

## 1.5 Scope and Methodology of Audit

The Performance Audit was conducted covering the period from 2017-18 to 2020-21. Audit examined the records in the State DBT Cell, Finance Department in the Government Secretariat, Directorate of *Panchayats* including the DBT Cell under it, IKM, KSSPL and 37 LSGIs.

The five SSP Schemes implemented by the Local Self Government Department (LSGD) were selected for audit as detailed below:

1. Indira Gandhi National Old Age Pension (IGNOAP) (NSAP<sup>4</sup>),
2. Indira Gandhi National Widow Pension (IGNWP) (NSAP),
3. Indira Gandhi National Disability Pension (IGNDP) (NSAP),
4. Pension for Unmarried Women above 50 years (UMWP) (State Scheme<sup>5</sup>) and
5. Agriculture Labour Pension (ALP) (State Scheme)

<sup>4</sup> Funded by Government of India and Government of Kerala.

<sup>5</sup> Funded only by the Government of Kerala.

Five<sup>6</sup> out of 14 districts and 37<sup>7</sup> out of 389 LSG Offices in the five selected Districts were selected for audit by Simple Random Sampling Without Replacement method using IDEA software.

An Entry Conference was held on 08 March 2021 with the Additional Chief Secretary to LSGD, Officers of Finance Department, Directorate of *Panchayats* and IKM in which the Audit Objectives, Criteria and Methodology of this Performance Audit were explained.

Audit also test-checked the files and records available with the State DBT Cell, Finance Department in the Government Secretariat, Directorate of *Panchayats*, IKM, KSSPL, selected LSGIs and corresponding PACS in the selected Districts.

An Exit Conference was held on 10 January 2022 with the Secretary (Expenditure) of Finance Department, Director of *Panchayats* and officers of the Finance Department. The Government and the Department accepted the audit findings and stated that they would correct the system based on the Audit recommendations.

## 1.6 Disclaimer

The observations featuring in this Audit Report are a result of test-check in the selected offices. Government may initiate checks of the database/ records across the State and rectify the defects.

## 1.7 Acknowledgement

Audit acknowledges the co-operation and assistance extended by the Additional Chief Secretary (Finance), Principal Secretary (LSGD), Director of *Panchayats*, Executive Director (IKM), District and field level functionaries of selected districts during the course of the Performance Audit.

<sup>6</sup> Idukki, Malappuram, Pathanamthitta, Thiruvananthapuram and Thrissur.

<sup>7</sup> Corporations – Thiruvananthapuram and Thrissur.  
Municipalities – Chalakkudy, Chavakkad, Kattappana, Manjeri, Nedumangad, Pandalam, Pathanamthitta, Tanur, Thodupuzha and Varkala.

## **Chapter – II**

# **Implementation and Management of Direct Benefit Transfer in SSP Schemes**

## CHAPTER - II

### Implementation and Management of Direct Benefit Transfer in SSP Schemes

#### 2 Implementation and Management

One of the objectives of Audit was to verify the effectiveness in providing timely and appropriate pensionary benefits directly to the beneficiaries of Social Security Pension Schemes under Direct Benefit Transfer programme.

Under the ambit of DBT, the State DBT Cell, constituted under the instructions of GoI, is the nodal agency for all DBT Programmes in the State. However, for the purpose of SSPs, a DBT Cell in the Directorate of *Panchayats* is the nodal office for co-ordinating all activities related to disbursement of SSPs. The applications for SSPs are received and processed in LSGIs and the beneficiary list of SSPs and the funds received for the disbursement of SSPs are managed by this DBT Cell in the Directorate of *Panchayats*. Funds required for the disbursement of SSPs are being managed by KSSPL separately through the funds received from GoK and additionally through the loans raised from various entities within the State.

In order to verify the effectiveness of the DBT programme, Audit test-checked the process of approval of applications and management of SSP Scheme beneficiaries in selected LSGIs and DBT Cell, and analysed back-end data of Sevana Pension software obtained from IKM. In spite of the limitations in the availability of data regarding fund arrangement and its utilisation, Audit also scrutinised the accounting of funds for SSPs by KSSPL.

On test-check of files and on analysis of data in the selected LSGIs, Audit noticed deficiencies in the process of verification and approval of applications for SSPs, like:

- Irregular approval/ payment of IGNWP to those legally divorced,
- Sanction of SSPs to Government Employees and Service Pensioners who are ineligible for SSPs,
- Irregular disbursement of SSPs to those who were reported deceased as per the Register of Deaths,
- Disbursement of two pensions to single beneficiaries,
- Payment to the beneficiaries who were suspended by the LSGIs,
- Ineligible disbursement of Old Age Pension at enhanced rate, etc.

In the accounting of funds for SSP Schemes in KSSPL and DBT Cell, Audit noticed non-maintenance of books of accounts, non-reconciliation of funds for the disbursement of SSPs, deficiencies in tracking the undisbursed amount and

refund, etc.

These and other deficiencies noticed during audit are discussed in detail in the succeeding paragraphs.

## 2.1 Functioning of State DBT Cell

The Government of India issued directions<sup>8</sup> to set up DBT Cell in the State which would act as a focal point for implementation of DBT schemes of both Government of India and States. The State DBT Cell was to be set up to ensure coordination between the Central Ministries and States which would enable faster decision-making, eliminate duplication of efforts and smoothen out differences, if any, hence fostering an easier transition of schemes on to DBT. In Kerala, State DBT Cell was constituted in July 2016 with the Additional Chief Secretary (Finance) as Chairman.

Scrutiny of records relating to the DBT Schemes and replies to the Audit requisitions revealed certain shortcomings in the functioning of State DBT Cell, as given below:

1. There is no coordination among the State DBT Cell and various Departments operating DBT schemes. No Advisory Board has been constituted in the State till date. State DBT Coordinator and Implementation Support layer too were not constituted in the State;
2. The State DBT Cell has so far been inactive except for the creation of scheme code to Centrally Sponsored Schemes in DBT Bharat portal and uploading the monthly transaction details and connected matters. A core DBT application for coordinating the activities of DBT schemes is absent in the State DBT Cell. No specific/ consistent protocols were established and followed for validation and verification of beneficiary database. No specific Information and Communication Technology (ICT) applications were developed to capture the data for DBT transfers;
3. The details of current status of DBT schemes implemented in the State, such as setting up of goals, deadlines for on-boarding of schemes on DBT, monitoring the progress against the targets, collating and analysing the data points and preparing progress report of the State pertaining to each Department/ Scheme, were not readily available with the State DBT Cell;
4. Various attributes such as manpower, hardware, connectivity, training for capacity building and implementation of various DBT schemes have not yet been assessed by the State DBT Cell;

<sup>8</sup> Vide DO No. I-11011/145/2015-DBT-Cab dated 25 May 2016 from Secretary to Government of India. Accordingly, Government of Kerala, vide GO(P) No. 108/2016/ Fin dated 29 July 2016, constituted State DBT Cell in Finance Department.

5. No training was provided for skill development in the area of digitising beneficiary records, understanding end-to-end processes and Frequently Asked Questions (FAQs) and acquainting with troubleshooting guides for performing the duties in an efficient and error-free manner;
6. Details as to the procedure of documentation in respect of beneficiary identification and enrolment, beneficiary validation/ registration and generation and processing of payment file were not readily available with the State DBT Cell;
7. No specific guidelines/ norms/ instructions were issued by the State DBT Cell for classifying a scheme as DBT scheme. The State DBT Cell did not have a list of all the schemes where DBT was applicable in the State;
8. The details of threshold for acceptance and non-acceptance of beneficiaries fixed by the Departments concerned are not available with the State DBT Cell. The Cell also does not have the details as to how the guidelines for wrong inclusion and erroneous exclusion of the beneficiaries are defined and documented and whether it is followed scrupulously. The State DBT Cell stated that the above details would be furnished only after the receipt of the same from the implementing Departments;
9. The Sevana Pension software is not integrated with payment module for seamless updation of data on the State DBT portal. The data on State DBT portal is not displayed in real-time and not even periodically updated. The State DBT Cell collects the expenditure details from Budget Allocation and Monitoring System (BAMS) and uploads it manually to State DBT portal. No system has yet been framed to upload the data in the DBT Bharat portal;

The Government replied (May 2022) that necessary steps will be taken to ensure that the State DBT Cell, being the nodal agency in the State, is functioning as per the required norms.

## 2.2 Deficiencies in Verification

The Government had given instruction<sup>9</sup> that the Verifying Officers<sup>10</sup> shall conduct a detailed verification about the eligibility for SSPs and submit the same to the Welfare Standing Committee. The eligibility criteria and various guidelines issued by the Government of Kerala for the verification process of five SSP Schemes implemented by the State are as detailed in **Appendix – I**.

---

<sup>9</sup> Vide GO (MS) No. 483/2017/Fin dated 06 November 2017 and GO (MS) No.97/2020/Fin. dated 23 September 2020.

<sup>10</sup> For IGNOAP - Village Extension Officer/ Revenue Inspector, IG NWP – Integrated Child Development Services (ICDS) Supervisor, IGNDP – Health Inspector, ALP – Agriculture Officer, UMWP - ICDS Supervisor.

Audit scrutinised (March 2021 to November 2021) a total of 38,797 out of the 1,04,727 applications (37.05 *per cent*) received in the sample LSGIs. It was noted that in the case of 11,667 applications, instead of a detailed verification report, the Verifying Officer had only mentioned whether the applicant was 'eligible' or 'ineligible'. There was thus no assurance that the Welfare Standing Committee had based their decisions on the actual circumstances of the applicant.

It was also noted that 513 (2.97 *per cent*) of the 17,285 applicants whose applications were rejected earlier on various grounds were subsequently approved as fresh applications. Of the above, 511 applicants did not go for the appeal process as mandated in the Government order<sup>11</sup>. The system does not record details relating to the rejected applications. This enabled these 511 applicants to go for second applications instead of appealing, as directed in the Government orders, thereby subverting the mandated process of approving the pensions. Two of the 513 applicants got approval as fresh applications in spite of the fact that their appeals had already been rejected.

The irregular approval of SSPs by the Secretaries of the LSGIs without re-verification of eligibility criteria by a Committee consisting of the Chairman of Development Affairs Committee, Secretary of the LSGI and a Gazetted Officer of the LSGI resulted in potential irregular payment of pension to these 513 beneficiaries upto April 2021.

**Box No.1**

Audit observed in two cases<sup>12</sup> relating to Thrissur Corporation that the applications were rejected by the Verifying Officers stating that the applicants were in better financial position. The applicants filed appeal before the Regional Joint Director, Urban Affairs, Kochi which were subsequently rejected stating the same reason. In contravention to the orders of the appellate authority, the Welfare Standing Committee still approved the fresh applications filed by these two applicants and the Secretary of Thrissur Corporation sanctioned the pension in December 2020 and March 2021.

On this being pointed out, the Secretary of Thrissur Corporation stated that the SSPs were sanctioned to the applicants on the basis of favourable report of the Verifying Officer concerned on the new application. The reply is not acceptable as sanctioning of SSPs to the applicants, whose applications were rejected by the Secretary of the LSGI and the Appellate Authority after verification, were not in order.

The Government replied (May 2022) that a new proforma covering all relevant details as pointed out by the Audit will be introduced. Regarding applicants

<sup>11</sup> Vide GO (MS) No.427/2019/Fin. dated 20 November 2019 and guidelines to apply for SSPs available in the website of LSGD.

<sup>12</sup> Pensioner ID No.101700223793 and Pensioner ID No.101700224247.

whose first applications were rejected on various grounds and who later received approval on their second applications, the Government also stated that the Finance Wing (District Finance Inspection Squad) has been entrusted to examine the cases.

The Government may expedite the rectification process to avoid payments to ineligible persons.

### **2.3 Laxity in verification process and ineffective system**

As per the Guidelines<sup>13</sup> issued by GoK, persons who are having better physical circumstances, like income exceeding one lakh rupees, family having vehicle above 1000cc capacity, etc. are not eligible for SSPs.

Audit verified (November 2021) the rejected SSP applications and noticed that five beneficiaries who were already receiving pension have again applied for SSPs. However, this could not be identified by the Verifying Officer. These five second applications were rejected not because of their duplication but because of various other reasons, such as better financial condition, family have vehicle above 1000cc capacity, etc. as reported by the Verifying Officers in their reports. On cross-verification in the Sevana Pension software, it was noticed that these persons were already included in the active beneficiary list and had received various SSPs prior to the application dates of the recently rejected application, as detailed in **Appendix II**. As these beneficiaries are having better financial conditions as revealed in the verification reports of the Verifying Officers while scrutinising the second applications, the SSPs already being drawn by these beneficiaries are also liable for stoppage. Lack of such input controls, as mentioned in Paragraph 3.5, will lead to erroneous approval of second application by a beneficiary.

The Government replied (May 2022) that periodical monitoring has not yet been decided by the Government. Since Aadhaar number is mandatory to apply for SSP, the software checks the new applicants with the existing pensioners.

While the reply appears to be sound on the surface, the reality on the ground shows none of the second applications were cancelled on account of Aadhaar numbers being repeated. Instead, the applications were rejected due to better financial condition of the applicants, as brought out in the reports of the Verifying Officer. Moreover, the reply lacks merit as a new application finds place in the system only after it is approved, which means that control checks to weed out ineligible applicants are already redundant by that stage.

Lack of proper verification and monitoring process has given undue advantage of SSP to otherwise ineligible beneficiaries.

---

<sup>13</sup> Vide GO (MS) No.97/2020/Fin. dated 23 September 2020.

## 2.4 Delay in approval of SSPs by Secretaries of LSGIs

The Government of Kerala directed<sup>14</sup> LSGIs that SSPs are to be approved within 40 days of receipt of the application.

Audit verified (September 2021) the data in Sevana Pension software (data dump) and noticed that in the cases already sanctioned by the LSGIs, the approval of SSPs for 5,73,406 persons out of the 54,56,498 persons included in the data dump were delayed beyond the envisaged timeline of 40 days, i.e. a delay for 10.51 *per cent* of total approved applicants. In respect of selected LSGIs, there was a delay in approval of SSP in 37,459 cases, as detailed in **Appendix III** and as shown in **Table 2.1** below:

**Table 2.1**  
**Delay in approval of SSPs in the selected Districts**

District	No of applications approved with delay	Maximum delay in months	Range of Delay			
			1 to 10 days	11 days to 1 month	1 month to 1 year	More than 1 year
Idukki	3,328	18	72	369	2,870	17
Malappuram	5,137	20	74	414	4,601	48
Pathanamthitta	3,866	24	63	288	3,409	106
Thiruvananthapuram	16,314	27	80	392	15,017	825
Thrissur	8,814	25	130	587	7,854	243
<b>Total</b>	<b>37,459</b>		<b>419</b>	<b>2,050</b>	<b>33,751</b>	<b>1,239</b>

(Source: Sevana Pension Database)

Out of the 86,675 applications approved in the LSGIs of selected districts, 37,459 applications, i.e. 43.22 *per cent*, were approved beyond the stipulated timeline of 40 days, causing hardship to the applicants and impeding the pace of inclusion. Therefore, non-compliance by the Secretaries of LSGIs on the process timeline prescribed by the Government had resulted in delay in approval/ payments to the SSP beneficiaries.

The Government replied (May 2022) that the Director of *Panchayats* has been directed to issue instructions reiterating the position in processing the application for SSPs.

As SSPs are given to those who do not have any other source for their basic needs, swift action by the Government would ensure that benefits are delivered to those in due time.

<sup>14</sup> Vide Circular dated 28 September 2019.

## 2.5 Irregular approval of beneficiaries

### 2.5.1 Approval of second SSP

As per Government order<sup>15</sup>, two SSPs for one individual are admissible only in the cases of beneficiaries of Disability Pension.

The cross-verification of the data for double pension with the help of Aadhaar number revealed that 3,990 individuals are receiving ineligible second pension, out of which 13 are cases where the same individuals got approved as beneficiaries of Widow Pension and Unmarried Women Pension at the same time, as pointed out in detail in Paragraph 2.5.2. However, there were also beneficiaries whose Aadhaar numbers were not recorded in the database. Hence, Audit did a cross-verification using 'Name' and 'Address' fields to check for 'Disbursement of same pension more than once to a beneficiary', which disclosed irregular payment of SSPs to 823 beneficiaries, as detailed in Paragraph 2.11.2.

The existence of ineligible double pension indicates that the Software is not able to perform basic validation to identify duplication in Aadhaar number or similar data such as Electoral Card number.

The Government replied that from 6 February 2017 onwards, only one pension is permissible. The Sevana Pension software has been modified in such a way that entry of a second pension will lead to suspension of SSP.

The reply is not acceptable as Audit noticed instances of irregular double pensions even after 6 February 2017, which shows that the modification in the Software is not effective and has not been tested rigorously before its deployment.

### 2.5.2 Approval and Disbursement of two pensions (IGNWP and UMWP) to single beneficiary

An analysis of the list of beneficiaries of IGNWP and UMWP of Sevana Pension software with Aadhaar numbers revealed that 13 women were irregularly entitled for both pensions, as detailed in **Appendix IV**.

Out of the above 13, five women are 'Active' in both pensions and received both pensions as on August 2021. Among the above five women, three women applied for IGNWP first and later for UMWP. In another case date of application and approval of pension was one and the same. In yet another five cases, both the SSPs are 'Active' and both pensions were disbursed till July/November 2019 and the second pension was seen to be withheld thereafter for mustering. Out of the remaining three cases, in two cases, one pension was

<sup>15</sup> Vide GO (MS) No.282/2016/Fin dated 15.07.2016 of GoK.

active and the other one suspended, it was seen that in the third case, with different names with same Aadhaar Number, both the SSPs are suspended.

The failure to provide input controls in the Scheme Management software had resulted in loss to the Government and inclusion of ineligible persons as beneficiaries. Moreover, lack of proper monitoring by the Secretaries of LSGIs as stipulated in the orders issued by the Government requires urgent disciplinary action against the officials.

**Box No.2**

An applicant applied for SSP under IGNOAP on March 2017 in Vazhakkad Grama Panchayat (GP) and attached a request for cancellation of widow pension due to remarriage. The IGNOAP application was rejected by the Secretary, Vazhakkad GP due to non-attaining of the age of 60 years. Audit verified (October 2021) the Sevana Pension software, and noticed that the applicant is included in the active beneficiary list (Pension ID:109200600232) and has received widow pension from April 2015 to June 2021. Non-cancellation of widow pension even after the intimation of the remarriage had resulted in unauthorised payment of pension amounting to **₹0.54 lakh**.

The Government replied (May 2022) that the Director of Panchayats has been instructed to recover the amount and to take action against erring officials. The Government has already directed to link Sevana Civil Registration software with Sevana Pension software.

In the case of SSP Schemes, the Government may make the submission of Aadhaar number mandatory and also fix responsibility for lax monitoring, and ensure recovery of the amount.

### **2.5.3 Approval of SSPs without production of required certificates along with the application**

Applications for each category of SSP Schemes need to be submitted along with the respective certificates<sup>16</sup> from the authorities concerned proving their eligibility for SSPs.

Out of 86,675 applications for SSPs approved in the selected LSGIs during the audit period, 21,512 applications were test-checked. It was seen that in 278 cases, SSPs were sanctioned without production of mandatory certificates, viz. income certificate, death/ missing certificate from Village Officers and self-attested non-remarriage certificate. This resulted in irregular payment of pension up to **₹0.68 crore** to ineligible beneficiaries till April 2021. The district-wise details are given in **Appendix V**.

<sup>16</sup> Income certificate for all SSPs, Non-remarriage certificate for IGPNWP and UMWP from Village Officers and Death Certificate for IGPNWP from LSGIs.

The Government replied (May 2022) that compliance/ verification of eligibility criteria can be strictly adhered to as and when action is taken.

Since SSPs are largely dependent on borrowed funds, the Government may expedite compliance for better financial management.

#### **2.5.4 Beneficiaries added to a local body without submitting application**

The applications for SSP Schemes are verified by the Verifying Officer of LSGIs and confirmation of eligibility of the applicant is reported to the Secretaries of LSGIs. The Secretaries of LSGIs shall accept the application only after cross-examination of the report. The verified cases, together with the report of the Verifying Officer, are placed before the Welfare Standing Committee for approval, which finally sanctions pension to the beneficiaries.

The details of initial data entry of the beneficiaries are stored in the database in a table named TR\_WebPensionDataEntry. The table contains the User IDs of those who made the data entry and the approver of the beneficiary. From the User IDs, it is possible to identify the LSGI to which the user belongs. The first five digits of the User ID is the code of the local body.

An analysis of the data available in the table revealed that in 25 cases, beneficiaries added by a user of one LSGI are approved by the user of another LSGI, i.e. beneficiaries have been added from one LSGI to another LSGI. Audit physically verified (September 2021) two cases, which were in Kunnathukal *GP* and Chathannoor *GP* and confirmed that neither any application had been received at these *GPs* where these beneficiaries have been added nor their verification done.

The need for annual verification of beneficiaries for ensuring the continued fulfilment of eligibility criteria, strengthening of disbursement monitoring mechanism, linkage of Aadhaar number with beneficiary accounts, weeding out of ghost/ duplicate beneficiaries, etc. were recommended (as detailed in **Appendix VI**) in the Report of the CAG of India on Performance Audit of SSP schemes (Report No.6 of the year 2016). However, the non-compliance of these recommendations has led to the repetition of such incidences, as pointed out in Paragraphs 2.5.1, 2.5.2, 2.11.2 and 2.11.3 of this Report.

The Government replied (May 2022) that the Director of *Panchayats* is looking into the matter and that the Finance Inspection Wing will also conduct enquiry in this regard.

Since the issue involves process subversion, the Government may issue strict directions in this regard to avoid future recurrence.

### **2.5.5 Beneficiaries included during Welfare Standing Committee meetings held prior to their application date**

Applications received for SSPs are scrutinised and the list of eligible individuals approved by the Welfare Standing Committee. In the Sevana Pension software, the Welfare Standing Committee details are recorded as 'Council' details. After the approval, the Council details, the total number of beneficiaries considered by the Council and the number of beneficiaries approved by the Welfare Standing Committee, are entered in the system. Subsequently, the details of approved beneficiaries are entered. During data entry of beneficiaries, the year is selected first, and the required Council is selected from the list of Councils for that year. After selecting a Council, beneficiary details are added to that Council, which is limited to the number of approved beneficiaries approved by the Council and already recorded.

A scrutiny of the data available in the tables TR\_PensionWebFormEntry (containing details of initial data entry), TR\_Pension (master file of all approved beneficiaries) and TR\_RegistrationFW (details of Councils) revealed that in 953 cases, beneficiary details were recorded against Councils held prior to their date of application and an amount of **₹6.10 crore** have been paid to these beneficiaries. It was found in the database that slots were left vacant in many of the Councils, to which erroneous addition of beneficiaries are possible.

On examining the process of addition of beneficiary, it was noticed that the chance of accidental addition to an incorrect Council is remote, meaning thereby that the chance of malafide in these 953 cases is very strong.

The Government replied (May 2022) that a beneficiary is added only if he/ she satisfies all prescribed eligibility conditions. These conditions are scrutinised by the Secretary of the LSGI concerned. The LSGI Secretary and the Verifying Officer will be liable for any financial loss due to the sanction of pension for ineligible persons without following the guidelines issued by the Government.

As the reply is not specific to the point raised by Audit, subject specific remarks are awaited (October 2022).

### **2.5.6 Ineligible approval/ payment of SSPs noticed during Beneficiary Survey**

A Beneficiary Survey was conducted by a joint team of Audit and LSGI's representatives. A total number of 772 households in the selected LSGIs were randomly selected for the survey which revealed that beneficiaries were ineligible in 152 cases (19.69 *per cent*), as detailed in **Appendix VII**.

The Government replied (May 2022) that the cases would be examined.

Since almost 20 *per cent* sample of the test-checked cases revealed ineligible beneficiaries, the matter may be given top priority as ineligibility on this scale leads to enormous outflow of funds which is completely unwarranted.

## 2.6 Irregular sanction of SSPs

### 2.6.1 Sanction of SSPs to Government Servants/ Service Pensioners/ Temporary Employees

The Government stipulates<sup>17</sup> that the applicant should not be a recipient of salary/ pension/ family pension from Central Government/ other State Governments, should not be a retiree from Central/ State Public Sector Undertakings and a recipient of Pension/ Family Pension, and should not be an Income Tax Payer. In the following cases, concealing the fact that they are Government Employees, Service Pensioners or Temporary Employees, they were irregularly entered as beneficiaries and several thousands of them were receiving SSPs.

The Government of Kerala informed<sup>18</sup> the Director of *Panchayats* that Service Pensioners and Government employees who were receiving SSPs have been removed from the beneficiary list.

On verification of individual payment details available in the Sevana Pension Portal, it was found that payment to these beneficiaries had been discontinued from July 2019.

Audit obtained (February 2021) the data regarding list of sanctioned SSPs to Government Servants/ Service Pensioners/ Temporary Employees from the DBT Cell in the Directorate of *Panchayats* and compared it with the data of Sevana Pension software and noticed that a total number of 9,201 Service Pensioners and Government employees irregularly received SSPs. The total amount thus disbursed as SSPs to these ineligible persons for the three-year period from 2017-18 to 2019-20 works out to **₹39.27 crore**, as detailed in **Appendix VIII**.

It was noticed (April 2021) by Audit that there were Government employees and Service/ Family Pensioners who were receiving SSPs from the year 2000 itself. If the irregular payments of SSPs from the year 2000 are also to be taken into account, the loss to the Government would be huge.

In respect of the selected districts, Audit observed irregular payments amounting to **₹3.70 crore** in 835 cases on this account, as detailed in **Appendix IX**.

<sup>17</sup> Vide GO (MS) 483/2017/Fin dated 06 November 2017 and GO (MS) No.97/2020/Fin. dated 23 September 2020.

<sup>18</sup> Vide letter No.1447197/SFC-B2/2020/Fin dated 07 October 2020.

Lack of proper verification of the eligibility conditions of the applications and identification of beneficiaries had resulted in irregular disbursement of SSPs to ineligible persons and consequent loss to the Government. The irregular payments have not yet been recovered. Moreover, concealing the facts regarding receipt of pension by Service/ Family pensioners and Government employees by defrauding the Government should have attracted disciplinary action. However, neither any action nor any enquiry has been initiated till now (October 2022).

As SSPs are to be given only to those who have no other means for their livelihood, the issue highlighted here is of grave concern.

### **2.6.2 Disbursement of SSPs to Government Servants/ Service Pensioners/ Temporary Employees even after their suspension from beneficiary list**

On a test-check and analysis of data, it was observed that, SSPs were again irregularly disbursed to 400 Government employees, out of the 9,201 Service Pensioners and Government employees who received SSPs as mentioned in Paragraph 2.6.1 above, under 403 transactions even after their removal from the list of those receiving SSPs, as detailed in **Appendix X**. In 399 cases, SSPs were disbursed for two months, i.e. August and September 2019 batches<sup>19</sup>. In respect of one case, viz. SSP ID No.109500400174, pension was disbursed even after permanently removing it in July 2019 from receiving the SSP, in four batches, as detailed in **Appendix XI**.

In all the 400 cases, the transactions were “Successful”. Pensions were credited to the Bank Accounts for 319 persons and for 81 persons it was disbursed through DTH mode. Absence of proper control in the Sevana Pension software to check such ineligible beneficiaries during generation of bills and the laxity in proper verification and monitoring by the DBT Cell had resulted in loss of **₹0.10 crore** to the Government. More importantly, the absence of proper control in the software opens up the possibility of many more such cases occurring in future and escaping the Government’s notice, leading to more such expenditure towards ineligible beneficiaries.

The Government replied (May 2022) that the matter will be looked into.

The Government may rectify this on priority as it involves Service pensioners and Government employees who are already having regular sources of income and who should be acted against for committing such gross irregularities.

---

<sup>19</sup> Instead of monthly disbursement, SSPs were disbursed in three to nine batches with each batch comprising of two to five months of pending instalments during the audit period.

## 2.7 Poor accounting practices and resultant deviations in the accounts

The role of KSSPL (hereinafter referred to as the Company) in generation of funds starts at the stage when the Finance Department accords sanction for the total fund requirement to meet the disbursement of SSPs and simultaneously directing the Company to transfer credit the funds at the designated Treasury/ Bank Accounts. The direction/ sanction from the Finance Department is on the basis of a communication received from the DBT Cell in the Directorate of *Panchayats* regarding fund requirement for a particular month. The Company already will be having some amount at its disposal which have been received from GoK<sup>20</sup> for the disbursement of SSPs. The differential amount to meet the requirement of DBT Cell will be arrived at by the Company and that amount is to be raised as loans by the Company. After meeting the fund requirement, the Company transfer credits the required funds to the designated Bank/ Treasury Accounts.

Audit noticed serious procedural/ control lapses, with respect to accounting, on the part of the Company/ DBT Cell, such as non-maintenance of accounts, non-reconciliation of accounts, excess availing of loans, its irregular repayment, etc., as detailed below:

### 2.7.1 Non-maintenance of books of accounts

As per Section 128 (1) of the Companies Act 2013, every Company shall prepare and keep at its registered office books of account and other relevant books and papers and financial statement for every financial year which give a true and fair view of the state of the affairs of the Company. Section 2 (13) (i) of the Act states that books of account include records maintained in respect of all sums of money received and expended by a Company and matters in relation to which the receipts and expenditure take place.

- **Kerala Social Security Pension Limited**

The Company maintains accounts with the State Bank of India (SBI), Special Treasury Savings Bank, State Co-operative Bank and Union Bank and numerous cash transactions take place every day. Except for Bank Pass Books, the Company is not maintaining any ledgers/ registers in the prescribed format. As the Company is not maintaining separate cash books or any subsidiary accounts, the details of funds received from the Government of India/ State, funds raised from public/ PSUs and other institutions, funds transfer credited to Banks for beneficiaries, and funds if any repaid on account of loans, etc. are not available on records. As such, Audit is not in a position to ascertain the true and fair picture of the transactions of the Company. Non-maintenance of Cash

<sup>20</sup> Government of India funds are transferred directly to the DBT Cell in the Directorate of *Panchayats*.

Books and non-entry of monetary transactions in it or in any other subsidiary registers is indicative of weak control mechanism over financial reporting and may lead to financial irregularities and cases of misappropriation.

Further, the Company produced an audited accounts for the year 2018-19 to Audit in December 2021, which had been finalised only in October 2021, after a delay of more than two years. The audited accounts for the years 2019-20 and 2020-21 are yet to be finalised (October 2022).

The Statutory Auditor<sup>21</sup> had given Qualified Opinions in the audited accounts for the year 2018-19, and commented that due to absence of documents, they were unable to verify and comment on the correctness of the transactions, check the pension disbursed and amount held back by PACS, and check and verify the end use of the pension payments. The opinion also states that due to non-provision of supporting documents for Government grant receivable out of the total grant receivable, they were unable to comment on its correctness. The audited accounts also state that even though the Company has received ₹1,000 crore from M/s Kerala State Beverages Corporation during the year 2018-19, due to the absence of any information or explanation, the transactions could not be verified to express an opinion thereon.

- **DBT Cell in the Directorate of *Panchayats***

The DBT Cell maintains accounts with SBI for disbursement of pensions and for receiving the refund of the undisbursed pensions. The DBT Cell did not maintain cash book relating to the transactions during the period covered under audit. Due to non-maintenance of cash book and subsidiary accounts in proper form, Audit could not ascertain and verify the bank balance. Non-maintenance and non-entry of monetary transactions in the cash book is indicative of weak control mechanism over financial reporting.

The Government replied (May 2022) that several meetings were held with the Company, Director of *Panchayats*, Registrar of Co-operative Societies, etc. for formulating an efficient reconciliation process for the fund allotted to the Company towards disbursement of SSPs. The Government had directed the Administrative Department to instruct the Company to provide details required by the Audit. Regarding the qualified opinion of the Auditor, the Government replied that the Administrative Department has been directed to instruct the Company to take necessary corrective action in the matter. In the case of DBT Cell in the Directorate of *Panchayats*, Government replied that instructions had been given to the Director of *Panchayats* to keep cash book and subsidiary books.

Since substantial funds, specifically borrowed funds, are involved in the SSPs, non-maintenance of even the minimum books of accounts and non-reconciliation of accounts point out to serious dereliction of duties by officials

---

<sup>21</sup> RRM & Associates LLP, Chartered Accountants, Thiruvananthapuram.

concerned and potential for financial misuse, misappropriation and fraud. Hence, the Government may compulsorily ensure the upkeep of accounts and its reconciliation to avoid possible misuse and misappropriation of funds.

### 2.7.2 Allocation and usage of Funds for SSPs

As per the details furnished by the DBT Cell and the Company, the funds received from the Government of India/ Government of Kerala/ Director of *Panchayats*, loans raised by the Company to fulfil the requirements of SSPs, and the funds transfer credited to the Director of *Panchayats* during the period from 2017-18 to 2020-21 are as detailed in **Appendix XII**.

Audit noticed that during the years 2018-19 and 2020-21, the Company was having sufficient funds amounting to **₹5,579.28 crore** and **₹11,924.14 crore** in their accounts against the requirements of **₹4,654.96 crore** and **₹10,226.56 crore** respectively. In spite of having adequate funds, the Company still needlessly raised excess loans amounting to **₹6,818.82 crore** and **₹8,604.19 crore** respectively for those years. In respect of the year 2019-20, while the requirement for the year was greater than the amount in the account by **₹2,794.52 crore**, the Company went ahead with borrowing **₹6,843.65 crore**. In short therefore, loans amounting to **₹4,049.13 crore** were raised by the Company in excess of the final disbursement for 2019-20. Audit had enquired about the reason for availing excess loan to the tune of **₹19,472.14 crore** for these three years but no reply has been received till date (October 2022).

The Company had paid interest amounting to **₹1,596.34 crore** during the period from 2018-19 to 2020-21 from the loan amount raised for the disbursement of SSPs, which was in violation of the Government orders and the Memorandum of Association, which stipulates that the liability of the loan availed by the Company for the disbursement of SSPs shall rest with the Government. An amount of **₹10,848.61 crore** is outstanding against loans availed by KSSPL from various institutions as on 31 March 2021. When this loan amount is repaid from the Consolidated Fund, the revenue expenditure of the State will increase accordingly.

Audit noticed (November 2021) that there were differences in the amount received by DBT Cell and that disbursed by them during the years 2018-19 to 2020-21, as detailed in **Table 2.2** below.

**Table 2.2**  
**Details of excess amount disbursed during the period 2018-19 to 2020-21**  
(₹ in crore)

Year	Particulars		
	Amount credited as stated by KSSPL	Amount disbursed as SSPs by DBT Cell	Difference in Amount disbursed
2018-19	4,654.96	7,986.92	(-)3,331.96 <sup>22</sup>
2019-20	5,044.52	6,244.55	(-)1,200.03

<sup>22</sup> The negative figure indicates excess spending by DBT Cell.

Year	Particulars		
	Amount credited as stated by KSSPL	Amount disbursed as SSPs by DBT Cell	Difference in Amount disbursed
2020-21	10,226.56	10,173.42	53.14
<b>Total</b>			<b>(-)4478.85</b>

(Source: Information furnished by DBT Cell and KSSPL)

The reasons for the difference in funds and the source through which the excess fund requirement was met could not be explained by the Company or the DBT Cell as the reconciliation of funds was not done. This has been explained in detail in Paragraph 2.7.3 below.

The Government replied (May 2022) that the difference was due to erroneous taking of a part of the amount disbursed in 2018-19 to 2019-20. The reply is not acceptable to Audit as the difference of **₹4,478.85 crore** between total amount received and disbursed for the three years from 2018-19 to 2020-21 could not be clarified by the Government.

### 2.7.3 Non-reconciliation of funds for the disbursement of SSPs

As per Rule 93(bb) (4) of the Kerala Treasury Code, in whatever manner the accounts are maintained, the official concerned should reconcile the accounts periodically at least once in a month with the accounts kept by the Treasury and prepare a reconciliation statement at the end of each month and see that the closing balance of the month agrees with the balance in the account kept by the Treasury. This rule is also applicable in the case of money deposited in a Bank Account.

The Company stated that a total amount of **₹19,926.04 crore** availed as loan was transfer credited to the Directorate of *Panchayats* for disbursement of SSPs from 2018-19 to 2020-21 whereas the Directorate of *Panchayats* stated that an amount of **₹21,314.65 crore** was received from the Company for disbursement of SSPs for these periods as shown in **Table 2.3**.

**Table 2.3**

**Details of amount transfer credited by KSSPL to the Director of *Panchayats* for disbursement of SSPs**

Year	Amount furnished by	
	KSSPL	Directorate of <i>Panchayats</i>
2018-19	4,654.96	5,269.23
2019-20	5,044.52	5,818.86
2020-21	10,226.56	10,226.56
<b>Total</b>	<b>19,926.04</b>	<b>21,314.65</b>

(Source: Information furnished by DBT Cell and KSSPL)

Difference in amount transferred to the tune of ₹1,388.61 crore was noticed for the periods 2018-19 and 2019-20 and this was not seen to be reconciled. When this was pointed out, the Company reiterated that the amount transferred to the Directorate of *Panchayats* was only ₹9,699.48 crore for the periods 2018-19 and 2019-20.

The Government replied (May 2022) that the Director of *Panchayats* and the Company have been directed to take urgent steps to reconcile accounts as pointed out by Audit.

Since periodical reconciliation of accounts is not only an important exercise in financial prudence but also a safe and best practice to keep the accounts safe from misuse and malpractices, the Government may strictly ensure its compliance.

#### **2.7.4 Deficiencies in tracking the undisbursed amount and refund**

In all pension sanctioning orders issued by the Government, directions were also issued to refund the undisbursed pension amount to the Company's account.

Audit noticed (November 2021) that though the amount required for disbursement of SSPs were transfer credited by the Company to the Director of *Panchayats* for disbursement to beneficiaries, the refund of the undisbursed pension of beneficiaries were credited back by the PACS/ Banks concerned partially to the Company account and partially to the Bank Account of the Director of *Panchayats*. Hence, the Company was not aware of the actual volume of undisbursed amount.

On this being pointed out, the Company replied that it had received a number of amounts in its account throughout the month as undisbursed pension most of which were remitted by the PACS and some by Banks, *GPs* and even individuals. The Company stated that it was not able to identify the remitter or account from which the amounts were remitted. Besides, the data regarding the actual undisbursed pension with the Banks and with the PACS, who are the distributors of SSPs, is not with the Company and hence it was not possible to make reconciliation of the account.

Though the Department/ the Company is handling huge amount for disbursement of SSPs every month, no system exists to monitor the utilisation of the amount transferred, the amount disbursed as pension, the amount undisbursed and the amount credited back. Moreover, the Government is also not exercising any control over the Company or the DBT Cell, even though substantial amount of Government fund is involved in the SSPs. This may lead to the potential risk of misappropriation and fraud without getting noticed.

The Government replied (May 2022) that several meetings were held with the Company, Director of *Panchayats* (DBT Cell), Registrar of Co-operative

Societies, etc. for formulating an efficient reconciliation process for their fund allotted to the Company towards disbursement of SSPs.

The weakness in systems and procedures is a serious threat to fund management and needs to be rectified immediately in view of the high risks outlined above.

## 2.8 Non-adherence to the timely disbursement of SSPs

The NSAP guidelines envisage monthly disbursement of SSPs to the beneficiaries. To ensure the monthly disbursement of SSPs, the central share for disbursement of three NSAP Schemes, i.e. IGNOAP, IGNWP and IGNDP, are released twice in a year. The SSPs are given to those who have no regular means of subsistence. To ensure their daily sustenance, SSPs are to be disbursed monthly.

On an analysis of the disbursement of SSPs during the audit period from April 2017 to March 2021, it was noticed that SSPs were not being disbursed monthly. Instead, SSPs were disbursed in three to nine batches with each batch comprising of two to five months of pending instalments during the above audit period. Non-disbursement of SSPs as monthly payments leads to hardship for the beneficiaries who have no other means of livelihood. The frequency of disbursement is as shown in **Table 2.4**.

**Table 2.4**  
**Frequency in disbursement of SSPs**

Year	Frequency of disbursement in batches
2017-18	4
2018-19	3
2019-20	4
2020-21	9

*(Source: Data from Sevana Pension site)*

This irregularity in timely payment of pension had been pointed out by Audit (April 2022) for which no reply has been received (October 2022).

The above aspect had already been reported as Paragraph 4.2 of the Report of the CAG of India on Performance Audit of SSP Schemes (Report No.6 of the year 2016) for the GoK. However, the issue is still persisting.

## 2.9 Denial of pension to eligible beneficiaries due to erroneous bill processing

Beneficiaries of IGNWP and UMWP are required to submit 'Non-Remarriage Certificate' every year. Beneficiaries above 60 years are exempted from submitting non-remarriage certificate.

The Finance Department had directed that the beneficiaries of IGNWP and UMWP should be authorised pension for July and August 2021 regardless of their submission of 'Non-remarriage Certificate', i.e. no one should be excluded due to non-submission of the said certificate.

A scrutiny of the conditions applied in the Stored Procedure (SP)<sup>23</sup> revealed that IGNWP and UMWP were restricted to those who have submitted the Non-remarriage Certificate, as detailed in **Appendix XIII**. On analysis of data, it was found that 26,950 beneficiaries were excluded from the pension payment for the months of July and August 2021.

The omission occurred due to the negligence on the part of IKM in modifying the procedures run at the back-end for bill processing as per the new Government order and lack of control of DBT Cell on IKM. Similar omission by IKM resulted in erroneous payment to beneficiaries who are suspended by the LSGIs leading to loss of **₹4.08 crore**, as mentioned in Paragraph 2.13 of this Report.

Changes in the software modules need to be done with proper Change Management system, including documentation, testing, acceptance, etc. This applies to changes made in the SPs also which are executed separately for data processing related to the software. Lack of proper Change Management procedure is the main reason for occurrences of such errors in processing which lead to denial of benefit to the beneficiaries or huge loss to Government.

The controlling Department is not able to verify the correctness of activities performed by IKM. Automated bill generation, with option for DBT Cell to select the categories of beneficiaries to be included or excluded for authorisation of pension, would have eliminated the scope of such omissions.

The Government replied (May 2022) that IKM has been directed to rectify the defects pointed out by Audit.

The Government may direct IKM, the developer, for an automated bill generation process with option for the DBT Cell to select the categories of beneficiaries to be included or excluded for authorisation of pension and to stay themselves away from its administration.

## **2.10 Payment by 'Direct to Home' mode does not qualify as Direct Benefit Transfer**

DBT, as elaborated in Rule 87 of General Financial Rules (GFR), 2017 stipulates that transfer of benefits should be done directly to beneficiaries under various Government Schemes and Programmes using ICT. Necessary process reengineering to minimise intermediary levels and to reduce delay in payments

---

<sup>23</sup> An independent software module which contain instructions which would be executed when it is run on the back-end database.

to intended beneficiaries with the objective of minimising pilferage and duplication should be done for all Government Schemes and Programmes.

During the audit period 2017-18 to 2020-21, a total amount of ₹29,622.67 crore was disbursed for the five SSPs. Out of this, ₹15,312.33 crore (51.69 per cent) was transferred direct to the Bank Accounts of the beneficiaries and ₹14,310.34 crore (48.31 per cent) was paid in cash Direct to Home of the beneficiaries through PACS agents. The payment in cash through the PACS does not qualify as DBT, as it is not done directly to beneficiaries and does not minimise intermediary levels. Further, in respect of DTH disbursements, only the signature/ thumb impression of the beneficiaries are obtained as acknowledgement by the agent which is kept in the PACS concerned.

Absence of an automated beneficiary-wise acknowledgement had resulted in possibility of fraud in disbursement through DTH mode as illustrated in Box No.3 below Paragraph 2.11.3 of the Report.

This was pointed out to the Government in June 2022 for which a reply has not been received yet.

## **2.11 Irregular disbursement of SSPs**

### **2.11.1 Irregular payment of Widow Pension**

As per Government Circular<sup>24</sup>, legally divorced women and women deserted from husband are not eligible for IGNWP.

Audit verified (March 2021 to December 2021) a total of 14,924 sanctioned applications of IGNWP in selected LSGIs and noticed that IGNWP was irregularly sanctioned to 165 applicants who were legally divorced and to 420 applicants who were deserted by their husbands. Irregular payment of pension to legally divorced persons and persons deserted by husbands resulted in loss of ₹0.52 crore and ₹1.28 crore respectively. The district-wise details are given in **Appendix XIV**.

The Government replied (May 2022) that necessary directions have been issued to suspend/ weed out ineligible persons from Sevana Pension software and to recover the amount already disbursed.

Since substantial amount is involved in these cases, Government may expedite the recovery.

### **2.11.2 Disbursement of same pension more than once to a beneficiary**

As per Government Order<sup>25</sup>, under no circumstances can the same type of pension be allowed as a second pension.

<sup>24</sup> Circular No.97/2019/Fin dated 11 December 2019 of GoK.

<sup>25</sup> GO (MS) No.67/2017/Fin dated 06 February 2017 of GoK.

Analysis of data revealed that the same pensions were disbursed more than once to 823 beneficiaries in 1,703 Pensioner IDs during the period 2017-18, 2018-19 and 2019-20. Irregular disbursement of pension during the period from April 2017 to March 2020 resulted in a loss of **₹3.83 crore** to Government as detailed in **Appendix XV**. The above loss has been calculated excluding the one SSP for which the beneficiaries are eligible for.

Failure on the part of the LSGIs to ensure adequate verification before payment, along with the lack of monitoring by the DBT Cell and inadequate controls in Sevana Pension software had resulted in the irregular payment of same pension to a beneficiary more than once and consequent loss to Government.

The Government replied (May 2022) that the DBT Cell has been instructed to monitor properly.

The Government may monitor the action taken by the DBT Cell to ensure that the issues are sorted out at the earliest.

### **2.11.3 Irregular disbursement of SSPs to those who were reported deceased as per the Register of Deaths**

To avoid misuse of SSPs by the legal heirs of the deceased persons, the Government had instructed<sup>26</sup> all the Secretaries of LSGIs to take immediate action to suspend the deceased from the Sevana Pension software. In the case of DTH, the PACS after every disbursement should report the cases of deceased to the LSGIs. The Secretaries of the LSGIs, after enquiry, shall remove the deceased from the beneficiary list. The LSGIs across the State maintain the list of deaths occurred within the jurisdiction of the LSGI concerned in the Register of Deaths.

On cross-verification of beneficiary list with Register of Deaths, Audit noticed (March 2021 to November 2021) that out of 3,08,843 beneficiaries, 4,039 beneficiaries were deceased and their deaths had been registered in the same LSGI which had to remove the name of the beneficiary from the database.

The SSPs were paid in 1,698 out of these 4,039 cases, resulting in irregular payment amounting to **₹2.63 crore**. The district-wise details are given in **Appendix XVI**.

#### **Box No. 3**

Out of the 4,039 cases, in six cases in Varkala Municipality, pension was paid as DTH even after the date of death of the beneficiary. This had resulted in irregular payment of SSPs amounting to **₹0.01 crore**.

After being pointed out by Audit, the Secretary submitted the collection particulars in respect of the beneficiaries as detailed in **Appendix XVII**.

<sup>26</sup> Vide Circular No.69/2018/Fin dated 26 July 2018 of GoK.

On receipt of reply to the Audit observation, Audit visited the Varkala Service Co-operative Bank and scrutinised the acknowledgements of the SSP beneficiaries. In respect of these beneficiaries, different types of signatures and thumb impression were recorded against the acknowledgment column of the same person. It was also noticed that most of the amount were remitted by the same person. Under these circumstances, Audit suspects the possibility of fraud in respect of these transactions.

The Varkala Municipality then followed the same method of Audit and found out that SSPs amounting to ₹0.03 crore were paid to 38 beneficiaries (with the help of Aadhaar number attached with the death details) as DTH after death. In these cases too, recovery is in progress and the Secretary has assured to give the detailed list of the collection particulars in this regard.

Almost 50 *per cent* of the beneficiaries are paid through DTH mode by PACS for which the only assurance is the acknowledgement through a signature or a thumb impression in the form given by the agent. This is incongruous with the DBT, which requires Aadhaar enabled verification.

The need for a system to provide mobile alerts to beneficiaries about the payments credited to their accounts was recommended to Government (as detailed in **Appendix VI**) in the Report of CAG of India on Performance Audit of SSP Schemes (Report No.6 of 2016 of GoK). The effective implementation of such a system in the case of DTH would have helped the Government in detecting such malpractices.

The Government replied (May 2022) that IKM has been instructed several times to link Sevana Pension software with Sevana Civil Registration portal and to weed out the beneficiaries on their deaths. As the details of Aadhaar have not been seeded in the Sevana Civil Registration portal, there is difficulty in obtaining complete information of death cases. Regarding fraudulent transactions in the Varkala Municipality, the Government replied that the Secretary of the Varkala Municipality has been instructed to take steps to recover the amount of pension disbursed after the death of beneficiaries. The Director of *Panchayats* has been instructed to conduct internal audit.

While the Government may bring in the necessary internal controls to ensure such instances do not take place, action may also be taken to recover the payments and fix responsibility on the officials concerned as this is a case of potential misappropriation.

## **2.12 Irregular transfer of funds in respect of cases reported as deceased**

The Government instructed<sup>27</sup> that the PACS after every disbursement should

<sup>27</sup> Vide Circular No.69/2018/Fin. dated 26 July 2018 of Finance (SFC-B) Department, GoK.

report the cases of deceased beneficiaries to the local bodies. The Secretaries of the local bodies after enquiry should remove the deceased beneficiaries from the beneficiary list.

On an analysis of SSP disbursement data table of Sevana Pension software for the period from 2017-18 to 2020-21, it was noticed that funds were transferred to PACS in 6,79,585 transactions to 96,285 beneficiaries, though these beneficiaries were reported as deceased by PACS two to 20 months earlier, as detailed in **Appendix - XVIII**. A cross-verification of these details with the DBT disbursement details available in the online site of LSGD revealed that due to non-removal of deceased beneficiaries from the list by the Secretaries of LSGIs as instructed by the Government, the DBT Cell unnecessarily transferred funds to PACS for disbursement to those beneficiaries who were already reported as “Deceased” by PACS. The total amount transferred on this account up to April 2021 works out to **₹118.16 crore**. Due to the transfer of funds to PACS in the name of beneficiaries who were deceased, the Government incurred a loss of **₹0.87 crore** towards payment of interest. The irregular transfer of the funds in respect of cases reported as deceased is of grave concern as it could lead to potential fraud and misappropriation.

In respect of the selected districts, Audit noticed (March 2021 to November 2021) the transfer of funds amounting to **₹5.93 crore** to PACS for disbursing SSP in respect of the 4,701 cases who were already reported as deceased. This resulted in loss of **₹0.04 crore** to the Government towards payment of interest. The district-wise details are as shown in **Appendix - XIX**. It was observed by Audit that neither any verification was done by the Secretaries of LSGIs to check the facts reported by PACS nor any action taken to suspend the undue payments, both of which necessitate strict disciplinary action against the erring officials.

This was pointed out to the Government in December 2021 for which a reply has not been received yet. Specific replies/ action-taken had been requested (February 2022 and March 2022) for which a response has not been received yet (October 2022).

The Government may take action to plug such leakages and also fix responsibility on the erring officials.

### **2.13 Disbursement of SSPs to ineligible persons who were suspended from the beneficiary list**

The batch wise DBT status report, such as initiated records, transferred records, success records and failed records pertaining to all the five SSPs are available for the public in LSGD website Sevana Pension Social Security System (<https://welfarepension.lsgkerala.gov.in/DBTStatusRpt.aspx>) under the tab “DBT – Appropriation Information”. Individual disbursement details are also available in the same Sevana Pension website.

On verification of the TR\_Expenditure Table<sup>28</sup> of Sevana Pension software made available to Audit, it was noticed that five batch-wise DBT Reference numbers were captured in the Table against the year 2018 and transactions amounting to **₹4.08 crore**, disbursed vide these DBT Reference numbers in 10,406 transactions, were recorded as “Successful”, as detailed in **Appendix XX**. However, the details relating to these transactions were not available in the ‘DBT – Appropriation Information’ in the Sevana Pension website. The disbursements relating to these batches were also not found in the individual disbursement details available through the “Search” option on the website.

On a cross-verification of the TR\_PensionerBillDBTFinal Table, it was noticed that these DBT Reference numbers pertain to disbursements for the period from December 2018 to April 2019.

The matter was verified (September 2021) in the files available in DBT Cell and it was observed that in a Note dated 26 April 2019, it was stated that the DBT Cell had noticed erroneous disbursement of pensions to some ineligible persons, such as suspended persons. This fact was confirmed by IKM too. The matter was referred to a higher level from the DBT Cell and the Government<sup>29</sup> ordered the Director of *Panchayats* to stop the payments and to recover the amount already paid. However, the amount thus paid has not been recovered so far (October 2022).

The district-wise details furnished by the DBT Cell regarding the number of beneficiaries and the amount disbursed in respect of five SSPs during the year 2018-19 were 44,43,185 and **₹7,986.93 crore** respectively. On an analysis, it was noticed that the disclosed amount of **₹7,986.93 crore** was arrived at by deducting **₹4.08 crore** from the original transaction amount of **₹7,991.01 crore** that was captured in the TR\_Expenditure Table. The irregular payment was thus concealed from the details furnished to Audit and also from the reports that are available on the website for the public.

An application software is deployed in order to provide efficient and transparent mechanism in the management of such SSPs executed through them. In the instant case, the disbursements were made to ineligible persons who are suspended from receiving SSPs. Thus, it is evident that absence of proper controls in the Sevana Pension software to check such ineligible beneficiaries during initiation of bills and also due to the lack of proper verification and monitoring by the DBT Cell, had resulted in a loss of **₹4.08 crore** to the Government.

The Government replied (May 2022) that instructions have been issued to the DBT Cell and the IKM to recover the amount. The Government also stated

<sup>28</sup> Local body-wise and DBT reference-wise details of successful and failed amount of SSP beneficiaries of Sevana Pension software.

<sup>29</sup> Vide letter no. 1170386/SFC B2/18/Fin dated 30 April 2019.

about examining the matter of giving DBT Cell proper control over Sevana Pension software.

Since the delay in rectification process may lead to recurrence of the issue, this may be rectified at the earliest.

#### **2.14 Ineligible disbursement of Indira Gandhi National Old Age Pension at enhanced rate**

Beneficiaries of IGNOAP on attaining the age of 75 years are eligible for enhanced rate of pension at the rate of ₹1,500 per month with effect from April 2016<sup>30</sup>.

An analysis of the data in relation to the Date of Birth and Pension Payment details in the Sevana Pension software revealed that 1,60,950 beneficiaries were ineligibly disbursed pension in 2,15,497 instances at the enhanced rate of ₹1,500 per month. The excess payment was done for these beneficiaries for one to 27 months before attaining the age of 75 years, resulting in a loss of **₹10.11 crore** to the Government as detailed in **Appendix - XXI**.

Failure in providing proper controls in the Sevana Pension software and non-verification of eligibility criteria regarding payment of IGNOAP at enhanced rate before generation and sanction of the bill for payment of pension by IKM/DBT Cell had resulted in this excess disbursement of SSP and consequent loss to Government.

The Government replied (May 2022) that they will examine the case and take remedial action. This may be done without any further delay.

#### **2.15 Irregular transfer of amount to PACS due to non-suspension/non-removal of remarried beneficiaries of IGNWP and UMWP from the SSP beneficiary list**

LSGI Secretaries were instructed<sup>31</sup> to collect the information of death/remarriage of beneficiaries through *Anganwadi*/ASHA Workers<sup>32</sup> and exclude them from the database in the respective month.

Analysis of IGNWP and UMWP beneficiary data disclosed that 399 beneficiaries who were below 60 years of age out of 6,57,577 DTH beneficiaries were reported by PACS 15 to 24 months ago as being remarried but continued

<sup>30</sup> Vide GO (MS) No.24/2016/Ord dated 01 March 2016 of GoK.

<sup>31</sup> Vide Circular No.69/2018/Fin. dated 26 July 2018 of Finance (SFC-B) Department, GoK.

<sup>32</sup> *Anganwadi* Worker means a women employed to provide additional and supplementary health care and nutritional services to children and pregnant women under the Integrated Child Development Services Scheme. Accredited Social Health Activist (ASHA) Worker is a trained female community health activist, selected from the community itself under the National Health Mission. ASHA worker will work as an interface between the community and the Public Health System.

to be in the beneficiary list as their names were not removed after verification by the LSGIs concerned. Out of the 399, for 368 beneficiaries, no fund was transferred to PACS for disbursement of their pension as detailed in **Appendix XXII**. For the remaining 31 cases as detailed in **Appendix XXIII**, the DBT Cell continued to transfer funds to PACS totalling **₹0.08 crore** till June 2021, for disbursement of pension. However, PACS, being aware of the status, refunded the amount.

The inaction by LSGD in verifying the status of the women resulted in irregular transfer of funds to PACS for ineligible beneficiaries. All such women continued to be on the active beneficiaries list though their names should have been removed immediately upon information that the status had changed.

The Government replied (May 2022) that PACS and LSGIs have already been issued guidelines for strict compliance and currently PACS are reporting the death/ remarriage cases without delay through Sevana Pension software. Further, regarding remarried cases, the Director of *Panchayats* and the Director of Urban Affairs have also been instructed to look into the matter.

The reply shows that compliance by the Secretaries of LSGIs to the Government Circular<sup>33</sup> was not strictly done. Detailed instructions were given in the said order to gather monthly details of deceased/ remarried beneficiaries through *Anganwadi*/ ASHA Workers and remove them from the database. Since the Secretaries of LSGIs were not adhering to the above Circular, it led to the unnecessary transfer of large amounts to PACS. The inaction on the part of the Secretaries of the LSGIs calls for strict administrative action.

## 2.16 Non-deployment of Performance Audit Supervisors in LSGIs

The Director of *Panchayats* vide instructions<sup>34</sup> regarding deployment of Performance Audit Supervisors, proposes that the Performance Audit Supervisors in LSGIs ensure every month that the instructions given therein were being complied with by the LSGIs concerned and the non-compliances were reported without any delay.

Audit noticed (November 2021) that in any of the selected LSGIs, the envisaged Performance Audit Supervisors were not seen deployed to monitor the compliance of Government instructions and to report its non-compliance.

The Government replied (May 2022) that the Director of *Panchayats* has been instructed to look into the matter. In the absence of these Supervisors, it would be difficult to monitor the scheme. Therefore, the Government may do the needful at the earliest.

<sup>33</sup> Vide Circular No.69/2018/Fin. dated 26 July 2018.

<sup>34</sup> Circular dated 28 September 2019 of the Director of *Panchayats* regarding deployment of Performance Audit Supervisors in LSGIs.

## 2.17 Conclusion

Audit found that the effectiveness of DBT in SSPs were plagued with various inefficiencies and other lacunae, which were impacting its success. Moreover, only around 51 *per cent* beneficiaries could be technically held as availing of DBT, while the remaining 49 *per cent* were receiving their pensions in a roundabout way which would not qualify as “Direct” Benefit Transfer. Some of the important issues noticed in this regard are highlighted as hereunder:

- There is no coordination between the State DBT Cell and the Departments operating various schemes in the State. The State DBT Cell has not constituted the Advisory Board and the State DBT Coordinator and Implementation Support layer as directed in the guidelines. The details of State DBT schemes were not readily available with the State DBT Cell as the same were not centrally monitored by them;
- Non-adherence of the application process timeline led to delays in the approval and consequent payment of SSPs, causing hardship to the applicants;
- Absence of a system for identifying applications once rejected resulted in inclusion of ineligible applicants subsequently as beneficiaries, by accepting fresh applications from them;
- Lack of control in the LSGIs for verifying the financial condition/ status of the beneficiaries led to approval and continuous disbursement of SSP to ineligible beneficiaries;
- The LSGIs lack proper mechanism to cross-verify the new applications with active beneficiary list to identify the persons who are applying for a second time;
- Improper verification of applications for SSPs by the Verifying Officers and the Secretaries of LSGIs led to irregular sanction of SSPs to Government Employees/ Service Pensioners and Temporary Employees and consequent loss of money to the Government;
- Failure to adhere to the provisions/ instructions regarding maintenance of even basic accounts, and non-reconciliation of accounts by KSSPL and DBT Cell in the Directorate of *Panchayats* not only results in lack of transparency in booking of receipts and expenditure in the accounts, but also defeats the very objective of budgetary process. These may also lead to fraud and misappropriation, thereby putting additional burden on the exchequer which is already starved of funds;
- The KSSPL raised loans in excess of the requirement and paid interest from the loan amount so raised. Reasons for the same have not been shared with Audit;
- Neither KSSPL nor the Directorate of *Panchayats* have done the reconciliation of funds for the disbursement of SSP;

- There is no effective mechanism for ensuring the receipt of the SSP by the intended recipient;
- To the extent that SSP payments are made through the PACS (referred to as “Direct to Home”), such payments can be considered only as Benefit Transfers, and not as DBT in the opinion of Audit. DBT, as elaborated in Rule 87 of GFR, 2017 indicates that “Transfer of benefits should be done directly to beneficiaries under various Government schemes and Programmes using ICT. Necessary process reengineering to minimise intermediary levels and to reduce delay in payments to intended beneficiaries with the objective of minimising pilferage and duplication should be done for all Government Schemes and Programmes.” Therefore, payment in cash through the PACS does not amount to Direct Benefit Transfer, as it is not done directly to beneficiaries and does not minimise intermediary levels;
- Non-integration of Sevana Pension software with Register of Death and failure of the LSGI authorities in cross-verification of payment details with the Register of Deaths in the same LSGI had led to irregular payment of SSPs in the name of the deceased leading to suspected embezzlement of money and consequent loss to the Government;
- Non-verification of deceased cases reported by PACS to the LSGIs resulted in repeated unnecessary transfer of SSPs to PACS leading to blockage of funds and consequent loss to the Government towards payment of interest.

## 2.18 Recommendations

In view of the Audit findings above, the Government may consider:

- Directing the State DBT Cell to constitute an Advisory Board, State DBT Coordinator and Implementation Support layer. Efforts may be made for coordination among various Departments operating DBT Schemes by implementing specific ICT applications and real-time communication, and also through monitoring and the periodical updating of data in the State DBT portal;
- Fixing responsibility for the process of dereliction of duties and responsibilities by the officials concerned in the approval of SSPs;
- Ensuring that applications opting for payment of SSPs through DTH mode is strictly limited to most deserving beneficiaries who are unable to avail the banking facilities on their own, after conducting detailed verification and ascertaining the genuineness of the condition of the applicant;

- Fixing responsibility on the officials concerned who erred in sanctioning SSP at enhanced rate before the beneficiary attained the age of 75 years;
- Taking necessary action to include the details of all applications received for SSPs, irrespective of their approval or rejection, in the database to avoid future approval to ineligible applicants;
- Preparing a detailed proforma for providing the outcome on the verification of applications against the eligibility criteria, financial conditions/ physical circumstances;
- Ensuring that the LSGIs cross-verify all new applications with the active beneficiary list to avoid duplication of payment;
- Ensuring that the validation of data is done 100 *per cent* in order to weed out duplicate/ ineligible beneficiaries and to avoid errors;
- Issuing strict directions to fix responsibilities in the cases of irregular sanction of SSPs to Government employees/ Service pensioners and take strict and necessary action to rectify the deficiencies pointed out;
- Ensuring strict compliance for the maintenance of books of accounts, other relevant books and papers, and the financial statement for every financial year which give a true and fair view of the state of affairs of the Company, as required under Section 128(1) of the Companies Act 2013;
- Initiating immediate steps to set right the financial statements and transactions of KSSPL;
- Accepting the responsibility for the repayment liabilities of KSSPL and may exercise essential financial control over KSSPL;
- Issuing strict directions to KSSPL and Directorate of *Panchayats* to do the reconciliation of funds for the disbursement of SSPs and to monitor them;
- Linking the Sevana Pension software with the available database in the LSGIs for effective and essential correlation of facts relating to the beneficiaries and to plug irregular and ineligible disbursements. The database should also be cleaned regularly to weed out inconsistent entries;
- Fixing responsibilities on the LSGI authorities for the irregular transfer of funds to PACS due to non-verification of deceased cases reported by PACS;

- That disbursement of pension and its acknowledgement be done using automated or technology-enabled system like Aadhaar, rather than physical methods, like signature or thumb impression on receipts.

## **Chapter – III**

# **Effectiveness of Sevana Pension software**

## CHAPTER - III

### Effectiveness of Sevana Pension software

#### 3 Effectiveness of Sevana Pension software

Through a close examination of the Sevana Pension software, Audit wanted to evaluate whether the Software has been effective in bringing accuracy, transparency and effectiveness in the execution of the SSP Schemes under the Direct Benefit Transfer programme.

The Sevana Pension software was developed for the automation of disbursement of SSPs. It was developed by IKM and was intended to streamline the disbursement of SSPs with a transparent mechanism. The software and the database were hosted in the server at State Data Centre (SDC) and was made available to all stakeholders, viz. the DBT Cell in the Directorate of *Panchayats*, the LSGIs across the State and the PACS distributing pension in DTH mode. The whole responsibility of execution of Sevana Pension software for the management of SSPs lies with DBT Cell in the Directorate of *Panchayats*. Registration and management of beneficiaries in the software are done by the LSGIs. Fund estimation, bill processing and amount disbursement are the responsibility of the DBT Cell. The Finance Department of GoK sanctions the amount for periodical disbursement and provides necessary directions regarding selection of beneficiaries and payment of SSPs which are to be incorporated in the software.

Audit verified the user interface of the software at the DBT Cell, selected LSGIs and corresponding PACS. Audit also verified the records relating to the software development and management of SSPs, as available at the DBT Cell and the Finance Department. The processes performed by IKM on behalf of the DBT Cell were also checked and physically verified.

On verification of the database, user interface, records and processes, Audit noticed discrepancies in the Software, right from its design and documentation stages. Lack of proper planning and study of the system is evident and glaring in the form of the deficiencies in the Software. Input control deficiencies resulted in erroneous and inconsistent data which makes it impossible to ensure accuracy in pension calculation.

The critical data relating to nearly fifty lakh beneficiaries are placed at risk by hosting the Software with identified vulnerabilities. The processing errors in the Software forced the Department to seek the assistance of the Developer for disbursement of SSPs. With no option to monitor and control the user activities, the User Department became a spectator on each occurrence of erroneous transaction and irregular disbursement.

The deficiencies noticed by Audit are discussed in detail in the following paragraphs.

### **3.1 Lack of preparedness in automation of DBT**

Automation of a system involves system study and design, development and testing of software, installation of the software and ensuring its availability to all stakeholders. The responsibility of automation of the system should be entrusted to an entity by a competent authority, ideally by executing an agreement or by passing an order, enumerating the roles and responsibilities of all stakeholders.

The Finance Department or the DBT Cell could not furnish any such document relating to initiation of the automation of execution of SSP Schemes.

### **3.2 Documentation Deficiencies**

Development of a software requires a systematic planning which includes study of existing system and user requirements, which are to be properly documented. User Requirement Specification (URS) is an important document required in the planning stage of software development. The URS describes the business needs and what the users at all levels require from the system. A deficient URS may ultimately lead to the development of a deficient system. An approved URS ensures that the requirement of the entity has clearly been stated and the same has been passed on to the developer.

The System Requirement Specification or Software Requirement Specification (SRS) is prepared by the developer after understanding all the user requirements specified in the URS. This would enable both the client and the developer to ensure that the software being developed is able to meet all the requirements of the client. The client needs to accept the SRS after ensuring that all the requirements are clearly mapped in the system. These documents are important at the stage of testing the software.

Similar system study and documentation is required while modifications are made in the system. Organisations should follow a defined Change Management procedure that requires approval from a competent authority before being implemented into the operational environment.

#### **a) Absence of System Study Documents**

IKM, the software developer, did not prepare the URS and SRS documents before software development. IKM furnished (16 March 2021) an unsigned document purported to be the SRS of Sevana Pension software Version 1.0. The document however describes features of the latest version of the software where recent Government instructions have been incorporated. The 'References' in the document enlists Government orders and Circulars upto August 2020, which indicates that the document was prepared after August 2020. Further, many of the requirements listed in the document furnished by IKM were not seen incorporated in the software.

Absence of design documents show that proper system study was either absent or deficient during the development of this software, which, had they been there would have eliminated the design deficiencies such as non-recording of initial application, which resulted in irregular approval of beneficiaries as described in Paragraphs 2.2, 2.5.4 and 2.5.5 *ante*.

**b) Documentation and testing of changes in the Software**

Audit observed (August 2021) that proper Change Management procedure is absent in Sevana Pension software. Requests/ directions for changes required in the software are communicated to the Developer from DBT Cell or Finance Department. Government Orders are also considered for making the changes. None of these are documented by the Developer. There is no system of User Acceptance for the changes in the software. Though IKM claim that these changes are tested before deploying, no documentation of the same is available. The fact that certain modifications are not effective has already been brought out in Para 2.5.1 *ante*.

There is also no system available for the User Department to confirm that required changes have been made by the Developer. Omission on the part of the User Department in this regard led to denial of pension to eligible beneficiaries as detailed in Paragraph 2.9 *ante*.

Audit also observed (August 2021) that no formal/ documented system for complaint reporting exists in the Software. System deficiencies/ faults are reported through telephone calls. Whenever bugs are observed, users would lodge complaints through telephone calls and the Developer would make the changes in the application. These requests, modifications and testing are neither documented nor being monitored.

On these being pointed out, IKM stated that the changes in the Software are made according to the Government orders issued and directions from the Finance/ DBT Cell, which are received by email. But IKM could not produce any documentation relating to any of the modification done in the past. The reply is not acceptable as the changes are supposed to be tested by the testing team of IKM and it was admitted by IKM that the documentation regarding changes and test reports are not being maintained.

These were pointed out to Government in December 2021 for which no reply has been furnished by the Government (October 2022).

**3.3 Inadequate training, awareness of security**

It is essential to define the roles and responsibilities of various personnel within the organisation as well as the skill development or training to carry out their duties. It is also required to create awareness on their responsibility in respect of information system security. Awareness on security of the information assets

including software/ hardware, data and basic knowledge about the features of the software are primary requirement for a user in a software system.

Audit conducted a survey among the LSGI data entry users and found that there is lack of proper training among the users. The details are given in **Appendix - XXIV**.

The Government replied (May 2022) that IKM, in coordination with the DBT Cell, would arrange another round of training to the users of the Software and that the security requirements and implications would be stressed in the upcoming training programmes.

### **3.4 Deficiencies in integration of essential criteria for beneficiary approval and pension payment**

All the essential criteria regarding beneficiary addition should have been integrated in the Software. In the case of the Sevana Pension software, it should only have allowed the registration of those who fulfils the criteria stipulated for each SSP. For example, registration of an individual below 60 years, as a beneficiary of IGNOAP, should not have been allowed by the Software.

A report generated through the Software itself shows that there are 604 IGNOAP beneficiaries below the age of 60 years. Absence of proper in-built validation resulted in irregular registration of beneficiary and erroneous and conflicting values in date columns, such as Date of Application, Date of Approval, Date of Digital Signature, Date of Birth and Age. There is no provision in the system to endorse certain eligibility conditions also.

Lack of mapping the criteria in the software and the absence of proper monitoring by the DBT Cell in respect of necessary modifications done in the software by IKM, to incorporate the latest directions of the Government, has led to irregular approval of beneficiaries as mentioned in Paragraphs 2.5.1 to 2.5.3 *ante* and erroneous bill generation as described in Paragraph 2.9 and 2.13 *ante*.

The Government replied (May 2022) that IKM has already been instructed to look into the matter.

Since data inconsistency is a matter of serious concern, Government may expedite the matter with IKM.

### **3.5 Deficiencies in Input Controls**

Input controls are methods that mitigate the possible errors and omissions in data entry. This includes validation of data at the time of entry by the system itself and manual verification of data by a different user. Authorisation of data by a different user and segregation of these duties are key to successful data validation. These input control mechanisms ensure that accurate, reliable and complete data is accepted by the application. In the absence of proper input

controls there is always a chance of entering erroneous or fraudulent data in the system and failure of the application to deliver business objectives.

The Sevana Pension software lacked basic input validation during data entry of beneficiary details, which resulted in inconsistency in data, erroneous inclusion of beneficiaries and ineligible payment of pension.

Lack of validation in 'Age' and 'Date of birth' caused discrepancies in date of birth and age values as mentioned in Paragraph 3.6.5 below. Lack of cross-checking of date of application, date of approval and Council date led to inclusion of beneficiaries in wrong Welfare Standing Committees, as described in Paragraph 2.5.5 *ante*.

Due to the absence of details of rejected applications as mentioned in Paragraph 2.2 *ante*, the software is not able to identify and flag subsequent fresh application by the same individual. Ineligible second pension to same individuals, as mentioned in Paragraphs 2.5.1, 2.5.2 and 2.11.2 *ante* could have been completely avoided if proper validation was built in for crucial unique identification fields, like Aadhaar number and electoral ID card number.

The User ID of LSGI staff consists of a number representing the LSGI where the official is posted. Data entry of the approved beneficiary should have been restricted to the users of the same LSGI to which the beneficiary is being added. Lack of such input control led to fraudulent or erroneous addition of beneficiaries as mentioned in Paragraph No.2.5.4 *ante*.

### **3.6 Lapses in information security and monitoring**

The fundamental aspect of IT governance is the security of the information to ensure its availability, confidentiality and integrity on which everything else depends. Information Security is the ability of a system to protect information and system resources with respect to confidentiality and integrity. It allows an organisation to protect its Information System infrastructure from unauthorised users. It deals with the protection of information and information systems against unauthorised access or modification, whether in storage, processing or transit, and against denial of service to authorised users. And it includes those measures necessary to detect, document and counter such threats.

Information Security is increasingly becoming more important for the Government Institutions as the interconnection of public and private networks and the sharing of information resources increase the complexity of controlling access and preserving the confidentiality, integrity and availability of data.

### 3.6.1 Hosting of web application without Security Audit Certificate

The Government of Kerala had stipulated<sup>35</sup> that ‘Safe to Host’ Security Audit Certificate is mandatory for any website to be hosted at the SDC. Periodic Security Audit, once in every two years, is necessary for the websites. The GoK further reiterated<sup>36</sup> the requirement of ‘Safe to Host’ Security Audit Certificate for all e-governance applications from Indian Computer Emergency Response Team, an empanelled security auditing agency. It also stipulated that all websites/ applications hosted at the SDC would have to go through a complete security audit process before they can be hosted or whenever an alteration/ addition is made to the application.

The security audit of Sevana Pension software was done by the Computer Emergency Response Team-Kerala (CERT-K) in 2016 and the report of the security audit was made available to Audit. The report is in fact the result of ‘Phase-I Vulnerability Assessment’ done by CERT-K which enlists vulnerabilities classified on the basis of OWASP<sup>37</sup> Top 10 categories. The vulnerabilities reported by CERT-K are detailed in **Appendix -XXV**.

CERT-K provided recommendations on each vulnerability noticed and advised IKM to fix the vulnerabilities in the application as per the recommendations given and to submit corrected application for a subsequent round of auditing. It was stated by CERT-K that approval to host the application will be issued only after final confirmation by CERT-K that application is free from any vulnerability.

In respect of ‘Login Password Guessing Attack’ vulnerability, the recommendation was to implement some type of account lockout after a defined number of incorrect password attempts and Captcha Settings and to use strong credentials. Audit checked the login process of Sevana Pension software and found that there is no restriction to the number of incorrect password attempts. The status of other vulnerabilities reported can be verified only by a certified security auditor.

It is also noticed that periodic security audits as stipulated was also not done on Sevana Pension software. The Sevana Pension software and the valuable data, including personal details of the beneficiaries, are exposed to risk by hosting the web application in SDC without clearing security audit and ‘Safe to Host’ certificate.

The Government replied (May 2022) that IKM has already fixed the vulnerabilities as per the advice of CERT-K before hosting the application at

<sup>35</sup> Vide GO(MS) No.43/2015/ITD dated 01 October 2015.

<sup>36</sup> Vide GO(MS) No.8/2019/ITD dated 22 October 2019.

<sup>37</sup> Open Web Application Security Project (OWASP) is a non-profit foundation dedicated to improving software security. OWASP Top 10 is a book/referential document outlining the ten most critical security concerns for web application security.

SDC. The reply is not tenable as mandatory security audit was not seen done and the software is not certified as 'Safe-to-Host'. Further, CERT-K, in its letter dated 30 January 2021, stated that they have not issued 'Safe-to-Host' certificate in Security Audit Phase-I and subsequent audit was not done. Audit also found that vulnerabilities reported by CERT-K still exists in the present version of the software.

### 3.6.2 Lapses in monitoring of user activities

In a Government environment, access control is important because many Government entities process sensitive data and security of such vital data is of utmost importance. It should be ensured that only users with the authorised credentials have access to these sensitive data.

Access control is being given least importance in the Sevana Pension software. In an incident of erroneous addition of a beneficiary at Thrissur Corporation, IKM officials reported that the addition was done from Wadakkanchery Municipality and the error occurred as a result of using the login IDs of Thrissur Corporation and Wadakkanchery Municipality simultaneously in one computer. This shows that there is a practice of using login id of one local body in another.

Sharing of credentials is taken lightly and such incidents are not followed up and actions, as stipulated<sup>38</sup> in the guidelines for usage of passwords are not seen initiated.

User login details are not recorded properly in the system, which could later have been used to monitor the user activities by the User Department. IKM stated that user log is available in the Table 'TR\_Web\_UserLog'. On verification of the Table, Audit noticed (November 2021) that it does not contain the login-logout details of user and the details of all activities performed in the database. Further, it was noticed that transaction details available in the Table were not complete.

Audit even found passwords in unencrypted form in a Table named TR\_Login history, available in the database. The Table contains login details of users which are incomplete. Lack of login details and record of user activities make it impossible to trace the user *vis-à-vis* the activities.

Record of important activities, like application by individuals, their approval and digital signing, were found overwritten during subsequent process, due to possible flaws in the Software. Such overwriting of data resulted in loss of important information, like date of application, date of digital signing of approval, etc.

The DBT Cell is not able to monitor the active users of Sevana Pension software. Absence of such monitoring lead to misuse of User IDs such as login

<sup>38</sup> Vide Circular no PAN/2444/2020-D3(DP) dated 6 February 2021.

at one local body with the User ID of another local body. Irregular addition of users in the Software could have been avoided with better monitoring of user activities.

Even though the matter was reported to the Government (December 2021), the Government's reply is still awaited (October 2022).

### **3.6.3 Inconsistencies in Beneficiary addition**

The Sevana Pension software was closed during the period from February 2017 to June 2018. Data entry of new beneficiaries were also not done during this period of 17 months, as stated by the DBT Cell, in reply to a complaint regarding delay in approving SSP to an applicant.

On analysing the database of Sevana Pension software made available to Audit, it is found that 3,27,863 beneficiaries were added to the database during the period from February 2017 to June 2018 when the website was closed. The DBT Cell does not have any information about the addition of such a large number of beneficiaries when data entry was not possible through LSGIs. IKM stated that LSGIs were doing the data entry in the local server, which was later ported to the centralised server maintained in SDC.

However, the LSGIs visited by Audit reported that they were not able to enter the details of beneficiaries approved by the Welfare Standing Committee during the said period. On verifying the data, Audit noticed that out of the 3,27,863 beneficiaries added, a total of 2,99,427 received pension during the period. While some applicants were denied their right to receive SSPs on account of modification of application, others were able to get into the beneficiary list and received pension. Pension payments of eligible individuals whose applications were not processed due to the blocking up of data entry in Sevana Pension software were delayed upto 18 months. The criteria or method by which 3,27,863 beneficiaries were added, when LSGIs were not able to make data entry, could not be clarified by the DBT Cell. The reason for the discrepancy has been requested for from the Department, for which a reply has not been received yet (October 2022).

The Government replied (May 2022) that the Director of *Panchayats* is looking into the matter and that the Finance Inspection Wing will also conduct enquiry in this regard.

The Government may direct the Department to furnish the reasons for the discrepancy and its rectification.

### **3.6.4 Other security lapses**

Audit observed the following security lapses in the Sevana Pension software:

- a) It was noticed (August 2021) that critical information relating to SSPs are being transmitted between the User Department and the developer through their 'gmail' accounts, even though the entities have 'gov.in' mail accounts;
- b) While examining the Sevana Pension software at LSGIs, it was noticed (February 2021) that 'State Level Reports', which are intended for DBT Cell, are accessible to Data Entry Users. The Data Entry User at LSGI is able to open 'State Level' MIS reports which is not even permitted to be accessed by the LSGI Secretaries.

The application software should have been more robust and secured with facilities to monitor and control the user activities effectively.

This was pointed out (December 2021) to the Government, for which it was replied (May 2022) that use of gmail accounts has now been discontinued and access to reports are now restricted to authorised users only. The details regarding compliance are yet to be furnished.

### **3.6.5 Inconsistency in Master data files**

Master files containing Beneficiary details, Pension scheme details, Local Body details, etc. should be accurate and authoritative, permanent or semi-permanent computerised information, required for the computerised business process. It is essential to ensure the correctness, reliability and integrity of the data in Master Files as it can significantly affect the accuracy of the process and output.

#### **a) Beneficiary Master (TR\_Pension)**

TR\_Pension is the most important Master Table in the application, which contains all the information regarding beneficiaries. All the activities in Sevana Pension software depends on the information inside TR\_Pension Table. Date values are critical in distribution of SSP. A scrutiny of the date values available in this Table revealed the following points:

#### **i) Inaccurate Date of Birth entries in respect of active beneficiaries**

Age is a crucial data relating to the beneficiaries of IGNOAP, ALP and UMWP. Enhanced pension given to the beneficiaries was also dependent on the age of the beneficiary. Age of the beneficiary is decisive in the case of IGNWP and UMWP since beneficiaries above 60 years need not furnish Non-Remarriage Certificate. Also beneficiaries above 80 are exempted from furnishing Aadhaar. Incorrect values in 'Age' field can affect the payment of pension to beneficiaries. 'Date of Birth' is therefore one of the most important data for the accurate estimation of SSP.

On verification of the SPs executed during bill generation process, Audit noticed that the date of birth value is used in many of the Structured Query

Language (SQL) statements in the procedures. From the values available in the date of birth column, the following statistics is generated in respect of active beneficiaries and as detailed in **Appendix – XXVI**.

The age of the beneficiaries ranged from (-)1,298 to 267. Since the main criteria for pension calculation is the age of beneficiary, incorrect values of date of birth would lead to erroneous data processing and corresponding output. This would affect the estimation of pension amount and will have a huge impact both on the State exchequer as well as the beneficiaries. Cases of excess payment on account of irregular disbursement of enhanced pension as described in Paragraph 2.14 *ante* could have been avoided if the database contained correct date of birth values and were properly used in the software.

On a test-check of applications/ files produced to Audit in three<sup>39</sup> LSGIs with the Sevana Pension Database, it was noticed that in respect of date of birth of 1,015 applications test-checked, date of birth was entered in the database as the first day of the year in 44 applications which is different from that recorded by the applicant in the application and the documents produced along with it. Further, in nine applications instead of the date of birth only year of birth is provided by the applicants. Some illustrative cases are given in **Appendix - XXVII**.

It was observed that proper cross-verification of data entered with the application is not done by the authorities concerned, leading to incorrect entry of date of birth of the beneficiaries, where the date of birth/ age is the main deciding criteria for the eligibility of an applicant.

The Government replied (May 2022) that at present, provision has been enabled in the Sevana Pension software so that correct format of date of birth is entered by the LSGIs.

The Government may direct the Department to furnish the details regarding the enabling of such provisions in the Sevana Pension software.

**ii) Inconsistency in other date fields**

The date values in the columns dtApplication, dtApproved, dtDigitalSign and dtDistributionStart are important since these values affect the various MIS Reports and many decisions taken during bill processing. Scrutiny of the values in the above date fields shows that there are cases where pension payment started *before approval* and even *before application*. Audit verified (April 2021) the details of beneficiaries approved after 2016, since input of these details are done through the revamped Sevana Pension software. The discrepancies noticed (September 2021) in 2,86,842 cases are as detailed in **Appendix – XXVIII**, which account for 18.98 *per cent* of the total beneficiaries approved during the period.

---

<sup>39</sup> Thrissur Corporation, Nedumangadu Municipality, Kunnathukal GP.

The above discrepancies indicate that the data available in the crucial Master Table are inconsistent and unreliable.

#### **b) Pension type Master file (GM\_PensionType)**

A data Table containing details of SSP types is available in the database. The Table contains fields showing Pension type ID, Name of Pension and minimum age limit for each pension, along with many other relevant details. This data is one of the most important Master Data required for the processing of SSP. The data extracted from the said Table are detailed in **Appendix – XXIX**.

Lower age limit for ALP, IGNOAP and UMWP are recorded as 18, 18 and 19 respectively, which does not conform to the norms specified by the Government. With proper data, this Master file could have been used for proper validation during data entry.

The Government replied (May 2022) that strict controls have been incorporated in the Software. Records with incorrect data shall be rectified by the DBT Cell and steps will be taken to keep the data in master files updated.

The Government may furnish the details regarding the controls being incorporated in the Software and the action taken to rectify the data deficiencies.

### **3.7 Improper involvement of the Developer in data processing and reporting**

Segregation of duties is a fundamental control requirement as it reduces the risk of error and fraud. A software developer should not have access to the live computing environment to carry out the job assigned. Access to the live data at back end can lead to unintended changes which may not conform with the business rules set in the application, which in turn result in threat to data integrity, erroneous/irregular disbursement of SSPs, etc. There is a high chance of errors and omissions during manual intervention in data processing when it is done through procedures requiring editing during each execution, some of which have been identified by Audit. Such an error/omission during pension processing can cause huge loss to the Government. Execution of back-end process for each SSP payment during each payment cycle will leave the Department unable to trace the cause of any such errors.

In the case of SSP, actions pertaining to beneficiary management, fund estimation, disbursement, reconciliation, etc. are to be performed through the Sevana Pension software. The software application should be able to generate all reports required by the User Department. However, it was noticed (February 2021) that the majority of the processing and report generation intended to be done by the DBT Cell are actually performed by the Developer, IKM.

Fund estimation and bill preparation are done by IKM at back-end using independent SPs. The Government decisions relating to payment of SSPs need

to be incorporated in the SPs. Modifications in the SPs done by IKM are neither tested nor documented. Uploading of payment files to Bank server, receipt of payment status from Bank and reconciliation of the payment status are also performed by IKM, which are not completely automated. There were lapses/ discrepancies in these processes which led to excess payments and denial of benefit to beneficiaries as described in Paragraphs 2.9 and 2.13 *ante* respectively. The DBT Cell is not even able to identify such discrepancies due to lack of essential reports.

IKM, the Developer of Sevana Pension software intended for the management of SSPs in Kerala, continues to run the application rather than the User Department. The application cannot generate essential reports like fund requirement, disbursement, reconciliation, etc. Audit examined the SRS furnished by IKM and found that detailed design specification is not available in the SRS. Requirements identified by the Developer are given in the SRS but many of these requirements are not seen mapped in the Software. The requirements which are not incorporated in the software by the Developer are given in **Appendix - XXX**.

The monthly generation of bills should be done by the User Department through the User Interface of the Sevana Pension software. There should be clear segregation of duties between the entities/ persons responsible for development and maintenance of the IT system, and those responsible for and with control over the transactions processed through the IT system. However, that is not the case on the ground in this case. There is extensive involvement of IKM for the monthly generation of bills, amongst others. Use of SPs for such activities, especially monthly generation of bills, appear to indicate that SPs may be used as a substitute for timely and proper Change Management, in keeping with the changes in functional requirements. This is not proper.

The Government replied (May 2022) that IKM will take necessary steps to make the process fully automatic.

The Government may strictly monitor and ensure that there is adequate segregation of duties and the Developer is not involved in data processing and reporting.

### **3.8 Discrepancies in outputs**

Output from a software is the end product which should be accurate and should be available at any point of time. The reliability of outputs including Management Information System (MIS) reports is vital for management decisions and for the effective distribution of SSPs.

While checking the reports available in Sevana Pension software, Audit noticed (February 2021) discrepancies in some of the reports as detailed below.

### a) Report – ‘State level Monthly Disbursement Amount’

The report shows the number of beneficiaries under each pension scheme, the rate of pension and the total amount required for pension payment. A screenshot of the report screen is given below.

#### Report of State level monthly disbursement amount

Sl No	Pension Type	Sub Type	Total Beneficiaries	Monthly Rate - State Share	Monthly Rate - Central Share	Total Amount	Monthly Pension Amount State	Monthly Pension Amount Central	Total Amount
1	Indira Gandhi National Old Age Pension Scheme	Age less than 80	2077808	400	200	1500	831123200	415561600	3116712000
2		Age more than 80	503696	700	500	1500	352587200	251848000	755544000
3		IGNOAPS Total (a)	2581504	0	0	0	1183710400	667409600	3872256000
4	Indira Gandhi National Disability Pension Scheme	Disability % less than 80	356683	500	300	1500	178341500	107004900	535024500

(Source: Report generated from Sevana Pension software)

### i) Outdated rate of pension adopted

As per the report generated in March 2021, the State share and Central share are ₹400 and ₹200 respectively in respect of Old Age Pension and ₹500 and ₹300 respectively in the case of Disability Pension. These rates existed during the period from 1 April 2014 to 1 June 2016. The revised rates have not been incorporated in the system.

### ii) Mismatch in calculated value

As per the report, the values in the column for State share and Central share are not tallying with the value in the column for total amount i.e. State and Central share of Old Age Pension are ₹400 and ₹200 respectively but the ‘Total Amount’ is shown as ₹1,500.

### iii) Incorrect criteria applied

The report erroneously displays that the enhanced pension is eligible for beneficiaries above 80 years instead of the correct age of 75 years. This presents an incorrect number of eligible beneficiaries and deflates the amount required for enhanced pension, also depriving those between 75 and 80 years from the benefits of the Scheme.

Audit observed that an evident procedural/ logical error exists in the internal process of this report. The report of ‘State level Monthly Disbursement Amount’, which could be used by the DBT Cell for estimating the amount required for disbursement at any point of time gives inconsistent, erroneous and misleading figures. As a result of this, the DBT Cell is not using this report and the estimation of funds required for SSPs is being done through IKM every month. Instances of erroneous calculation of enhanced pension by IKM are detailed in Paragraph 2.14 *ante*, which could have been avoided if the report generated through the software was accurate.

**b) Report – ‘Statewise Incentive Details’ in DBT module**

The report of ‘Statewise Incentive Details’ shows the pension-type wise incentive amount due, incentive amount disbursed and balance amount to be disbursed. The report shows pending incentive amount in many of the pension payment periods. Sample reports showing incentive payments of April 2017 and August 2019 shows nil payment of incentive amount in some payment periods. However, the statement received from DBT cell reveals that incentive amount has been completely disbursed for the period from 2017-18 to 2019-20. As such the information given in the report ‘Statewise Incentive Details’ is incorrect.

**c) Non-working of reports**

Many of the reports available in Sevana Pension software do not work properly. On selecting these reports error screen is displayed. The screenshots of some of the reports which do not work properly are detailed in **Appendix XXXI**.

**d) Reports available in public portal**

The ‘Reports’ page<sup>40</sup> of Sevana Pension software presents various statistical data relating to the number of beneficiaries of SSPs. The statistics given are intended to provide valuable Management Information System (MIS) information for departmental authorities as well as general public. The detailed statistics gives the count of pensioners on the basis of various parameters, such as Pension type, Payment mode, Gender, Pensioner category, type of Local Body, Aadhaar seeding, etc. The report provides State-wide count and District-wise count.

On a scrutiny (February 2021) of the figures provided in the Reports page (last updated on 11 May 2021/7:31 PM), there are significant differences in the total number of beneficiaries under some parameters.

Aggregate of Pensioner category-wise count does not match with the given total number of pensioners. The difference is 68,658. Difference in the total of gender-wise count is 149. There is a huge difference of 21,46,671 in the

<sup>40</sup> [https://welfarepension.lsgkerala.gov.in/Web\\_Report\\_en.aspx](https://welfarepension.lsgkerala.gov.in/Web_Report_en.aspx).

aggregate of Local Body type-wise count. The difference in values indicates some serious error in the data or in the Reports module of the application.

The Government replied (May 2022) that problems in the reports in the public portal have been rectified and all the necessary reports will be verified and updated in the live site. The changes in the portal is yet to be verified. The Government may furnish the details regarding the action taken to rectify, verify and update the necessary reports in the public portal.

### 3.9 Susceptibility of Sevana Pension software to fraud

Once the beneficiaries of SSPs are approved by the competent authorities and all relevant details are captured in the Sevana Pension software, the monthly bill generation, including detailed beneficiary-wise payment, should be done using an automated process available in the software. The Fund Transfer Orders, detailing beneficiary-wise payments and pushing payments to individual beneficiary-wise bank accounts, should be initiated directly from the software, followed by automated beneficiary-wise responses, i.e. acknowledgement of receipt. This response should be pushed back as a reverse feedback loop to the Sevana Pension software for tracking actual beneficiary-wise receipt or non-receipt. In the case of DTH, such acknowledgement should be obtained using electronic means, such as Aadhaar based finger-print reader. Such a reverse feedback loop would enable tracking of actual beneficiary-wise transfer of SSP and consequently avoid pilferage and misappropriation of money. Audit noticed that automated reverse feedback loop for acknowledgement is absent in Sevana Pension software. Absence of such a system makes the software susceptible to fraud and misappropriation, as illustrated in Box No.3 below Paragraph 2.11.3 *ante*.

### 3.10 Conclusion

Due to various issues as summarised below, the Sevana Pension software has not been able to become fully effective in improving the accuracy and transparency in the DBT programmes:

- There is lack of proper planning of the automation process. No system design documents were seen prepared prior to the development of the Software, including efficiencies in input controls and correctness of outputs. This has led to serious deficiencies in the Software. There is no practice of documenting the software changes either;
- Security Audit has not been conducted to get ‘Safe to Host’ certificate before hosting the Software. The Software was hosted without addressing the vulnerabilities identified in the first phase of security audit performed by CERT-K;

- There is control lapse in Sevana Pension software from beneficiary addition to disbursement of SSPs. Controls in Sevana Pension software are not adequate and effective and hence lacks robustness. The integrity and consistency of the data also cannot be guaranteed. The Directorate of *Panchayats* is not able to perform the functions which are entrusted to them due to snags in the Software and are completely dependent on the Developer for all essential activities;
- IKM, the Developer of the Sevana Pension software, continues to run it rather than the User Department. The application cannot generate essential reports like funds requirement, disbursement, reconciliation, etc. IKM is generating these reports through backend through stored procedures, which require frequent modifications as well. Use of independent stored procedures for bill generation, without proper monitoring mechanism, instead of tested and certified built-in software modules, is not appropriate;
- The User Department is not able to monitor either the user activities at LSGIs or the activities performed by IKM. Further, there is no effective mechanism for ensuring the receipt of the SSP by the intended recipient.

### 3.11 Recommendations

In view of the Audit finding above, the Government may consider the following:

- The IT system may be revamped to address the findings highlighted by Audit. It may be ensured that the revamped system has adequate controls to ensure data integrity and consistency with all the eligibility criteria of the SSPs properly incorporated in it. The monthly bill generation and fund transfer may be automated, so that the User Department may operate it independently. The beneficiary-wise payments are to be pushed to the bank accounts and followed by recording the acknowledgement of the beneficiary, which can then be pushed back to the Software for tracking transfer of benefit;
- The role of the Software Developer needs to be restricted to development and maintenance of the IT system, with no responsibility or control over the transactions and activities processed through the system. The administrative responsibilities of the IT System, such as database administration, is to be with an entity or team completely segregated from the development and maintenance entity;
- The DBT Cell needs to be provided with total access and control on the system and all requirements such as bill processing, fund requisition, beneficiary details, fund releasing, report extraction, etc. are done exclusively by the Cell without any kind of intervention by IKM;

- The application software may be linked with the available databases in the LSGIs for effective and essential correlation of facts relating to the beneficiaries and to plug irregular and ineligible disbursements. The data may be verified regularly to weed out inconsistent entries;
- Acknowledgment of disbursement through DTH mode may be done using technology-enabled systems like Aadhaar, rather than physical methods like signature or thumb impression on receipts.

# **Chapter – IV**

## **Conclusion and Summary of Recommendations**

## CHAPTER – IV

### Conclusion and Summary of Recommendations

Any Direct Benefit Transfer (DBT) programme should be aimed at disbursement of benefits with a transparent process for transfer of funds at the right time to the right person. Out of the DBT Schemes in the State of Kerala, the Social Security Pension Schemes (SSP Schemes) constitute the largest component of all DBT programmes in the State, both in terms of the number of beneficiaries being impacted, as well as the amount of money being disbursed. The Directorate of *Panchayats* is responsible for carrying out the SSP Schemes, which is done through the DBT Cell under it.

Through this Performance Audit of the DBT of SSP Schemes, it was attempted to assess to what extent the DBT Programme relating to disbursement of SSP Schemes has succeeded in the State and how far the Sevana Pension software, the application software which is the backbone of this DBT Pension programme, has been effective in making the DBT process a success.

It was seen that while nearly 51 *per cent* of all disbursements under the SSP Schemes were now being undertaken under the DBT programme, the other 49 *per cent* was being disbursed through the DTH mode, which involved intermediaries and was consequently not a *direct* transfer of benefits. Therefore, the State needs to make efforts to include more beneficiaries under its DBT umbrella.

Various lacunae were noticed both in the planning for the DBT programme, particularly in its application software component, as well as in the implementation parts of it, which have been dealt with in detail in this Report. Many of these lacunae arose from the fact that the *entire* process has still not been computerised and many of the important initial and final steps, like registering of applications for pensions and ensuring a feedback loop regarding the acknowledgement of receipts after final disbursements respectively, have not been brought under the ambit of the software. Therefore, many mistakes (including possible frauds) which could easily have been avoided by putting strong controls and checks in the software, were now being regularly committed, often without the express knowledge of the DBT Cell itself. Audit feels that unless plugged immediately, such lack of controls can affect both the performance of the Software, as well as the success of the programme, significantly and cause attendant drain on the exchequer.

Moreover, in a worrying sign, it was seen that IKM, the Developer of the application software, continued to be the manager of the application database. The DBT Cell under the Directorate of *Panchayats*, which was the Nodal authority to implement this DBT programme and should naturally have been the authorised custodian of all data, was therefore either clueless about how to use the data available with it (there being no set of important Reports within the software which could be regularly and routinely generated using variable parameters) or at the mercy of IKM to feed them with requisite information as and when required. This raised an issue of both conflict of interest with respect to IKM, as well as reduced administrative competence for the DBT Cell, both of which need to be rectified at the earliest.

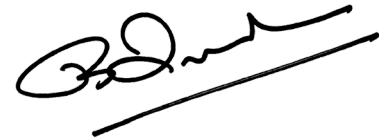

Various issues directly relating to the beneficiaries were noticed, like delayed payments of pension, payment of more than one pension to beneficiaries (excluding Disability Pension), payment of Social Security Pensions to ineligible beneficiaries including government servants, erroneous bill processing leading to ineligible payments, etc. were also noticed in varying numbers during the period covered under audit. Since these issues arose out of control failures *per se*, and not always out of detectable and deliberate malafide intentions, it is all the more important to plug these gaps in the system and software so as to ensure that there is no further drain to the exchequer in terms of amounts disbursed wrongly and also to make the programme succeed by weeding out ineligible and mischievous applicants. However, in some areas, like addition of beneficiaries for selection by the Welfare Standing Committee before even applying, where Audit felt that the controls in the system were strong but subversions occurred nonetheless, Audit cannot discount the possibility of deliberate malafide intentions by the officials concerned and illegitimate activities arising out of the same.

Keeping in view the above, Audit broadly recommends that the Government may consider:

- A more robust role by the DBT Cell under the Directorate of *Panchayats* to actively monitor and control the functions of disbursement under the SSP Schemes;
- Ensuring that a system is in place to send SMS alerts regarding payment of pension to the beneficiaries;
- Modification of the Sevana Pension software to provide all functionality required for proper execution of the activities related to SSP Schemes;
- Strictly restricting the role of the Developer of the Software to the development and maintenance of the IT system only, while the DBT Cell should develop capacities to manage the data and use it for various MIS purposes;

- Linking the Sevana Pension software with the other databases in the Local Self Government Institutions, for effective correlation of essential facts relating to the beneficiaries and to plug irregular and ineligible disbursements, and
- Addressing all the granular Audit findings already indicated in this Report, while modifying the software.

## Appendix – I

(Ref : Paragraph 2.2 – Page No. 11)

### Eligibility criteria of the five SSP schemes implemented by the State

Pension	General conditions	Specific conditions
<b>Old Age Pension (IGNOAP)</b>	<p>1. Annual Family Income ceiling should not exceed Rupees one lakh. Income certificates issued by Village Officer is necessary.</p> <p>2. Physical circumstance of the applicant - Plinth area 1,200 Sq.ft up to February 2019. From February 2019 the condition in plinth area of residence was omitted. From November 2019 onwards the physical circumstances of the applicant were revised. The minimum area of residence was raised to 2000 sq. ft without air-conditioned.</p>	<p>1) Age - 60 years and above</p> <p>2) Continuous period of residency - Past three years</p>
<b>Widow Pension (IGNWP)</b>	<p>3. Should not be a recipient of salary/ pension/ family pension from Central Government/ other State Governments, should not be a retiree from Central/ State Public Sector Undertakings and a recipient of Pension/ Family Pension, the applicant is not an income tax payer and a self-declaration to that effect is to be submitted.</p> <p>4. The applicant/ family should not own more than two acres. (Scheduled tribe is excluded).</p> <p>5. Applicant should not own/ in family non-taxi, four or more wheeled vehicles (except Ambassador car) with engine capacity of more than 1000 cc</p>	<p>1) Age – Nil</p> <p>2) Continuous period of residency - Past two years</p> <p>3) Should not be legally divorced.</p> <p>4. Should not be deserted from husband.</p> <p>5. Death certificate of husband issued by LSGIs is necessary.</p> <p>6. Non-remarriage certificate issued by Village Officer is necessary. Should also produce non-remarriage certificate issued by Village Officer/ Gazetted officer during the month of December every year.</p> <p>7. Self-declaration to the effect that she has not been remarried after the death of her husband is necessary.</p> <p>8. Applicants whose husband is absconding for more than seven years, applicants deserted by their husbands for more than seven years and above 50 years of age are eligible. The applicants should not be remarried persons. (from April 2020 onwards)</p>
<b>Disability pension (IGNDP)</b>		<p>1) Age – Nil</p> <p>2) Continuous period of residency - Past two years</p>
<b>Pension for Unmarried Women (UMWP)</b>	<p>6. No person shall be eligible if he/ she resorts to habitual begging.</p> <p>7. Applicant is not eligible if the person is admitted to a poor home.</p>	<p>1) Age - 50 years and above</p> <p>2) Continuous period of residency - Permanent resident</p>
<b>Agriculture Labour Pension (ALP)</b>		<p>1) Age - 60 years and above</p> <p>2) Continuous period of residency - Past ten years</p>

**Guidelines issued by the Government of Kerala for the verification process of five SSP schemes implemented by the State**

Sl.No	G O No.	Gist
1	GO(MS) No.483/2017/Fin dated 06.11.2017	<p>The applications for SSP after entered in an Application Register in the LSGIs are handed over to the Verifying Officer<sup>1</sup> for verification and confirmation of eligibility of the applicant. A comprehensive enquiry on the physical circumstances is to be conducted and the officer conducting the enquiry shall submit a report to the Secretary of the respective Local Self Government Institution (LSGI). The Secretary of the LSGI, after cross examination of the enquiry report from Verifying Officer and income certificate from the Village Officer, verifies the physical circumstances of the applicant and after satisfying himself that the applicant is eligible for SSP submits the application before the Welfare Standing Committee of the LSGI which is the final authority for giving approval. The data entry of the accepted cases is made thereafter at the LSGI and digitally signed by the Secretary of LSGI. The applicant is eligible for pension from the date on which it is digitally signed by the Secretary of the concerned LSGI. Presently, the DBT Cell in the Directorate of Panchayats directs the IKM to prepare the final bill for pension and Finance department gives sanction for disbursement.</p> <p>The applicant should not be a recipient of pension and the applicant should not be an income taxpayer.</p>
2	Circular dated 28 September 2019	<p>The timeline for sanction or rejection of application from the date of receipt of application in LSGIs should not exceed 40 days and shall be communicated in writing to the applicant.</p>
3	Circular No.SFC-B2/47/2017/Fin dated 31/03/2018	<p>The report of the Verifying Officer is considered as the basis for determining the eligibility of the applicants and for considering sanction of pension. In cases where the Verifying Officer finds that the person is not eligible for SSP, the Welfare Standing Committee of LSGIs could reverse the recommendation of Verifying Officer only if the Welfare Standing Committee is of the opinion that the finding of the Verifying Officer is incorrect. Government clarified that such cases should be re-verified by a committee consisting of the Chairman of the Development Affairs Committee, Secretary of the LSGI and a Gazetted officer from the LSGI.</p>
4	GO(MS) No97/2020/Fin dated 23.09.2020.	<p>Indira Gandhi National Widow Pension (IGNWP) is to be sanctioned on the basis of death certificates issued by LSGIs and non-remarriage/ income certificates issued by Village Officer. Further, it was stated that income certificates issued by Village Officer is necessary for all type of pensions.</p> <p>The general eligibility criteria of the five social security pension schemes implemented by the State. The applicant</p>

<sup>1</sup> For IGNOAPS - Village Extension Officer/ Revenue Inspector, IGNDP – Health Inspector, ALP – Agriculture Officer, UMWP - ICDS Supervisor.

Sl.No	G O No.	Gist
		should not be a recipient of salary/ pension/ family pension from Central Government/ other State Governments, should not be a retiree from Central/ State Public Sector Undertakings and a recipient of Pension/ Family Pension, the applicant should not be an income taxpayer. For Widow Pension, persons who are below 60 years of age and who have not submitted their non-remarriage certificate should be suspended/ removed from the list of beneficiaries after examining the case.
5	GO(MS)No. 35/2012/SWD dated 04 June 2012	The applicants for Indira Gandhi National Widow Pension (IGNWP) are to submit self-declaration to the effect that she has not been remarried after the death of her husband.
6	GO(MS) No.88/2019/Fin dated 15 February 2019	The applicants for IGNWP should produce non-remarriage certificate issued by Village Officer/ Gazetted officer during the month of December every year.
7	Circular dated 28.09.2019 of the Director of Panchayats	The enquiring officers and the Secretaries of the LSGIs concerned should ensure the eligibility of the beneficiary for receipt of pension and that they would be held responsible for any loss incurred in such cases. Issued various instructions to LSGIs for strict compliance. Performance Audit Supervisors of LSGIs had been entrusted to examine the compliance of instructions every month by LSGIs and the non-compliance to be reported to the Director of Panchayats without any delay. The NSAP guidelines also stipulates periodical review of the scheme.
8	GONo.97/2019/Fin dated 11.12.2019	Legally divorced women are not eligible for Indira Gandhi National Widow Pension (IGNWP). Government in the said circular also ordered that women deserted from husband is not eligible for Indira Gandhi National Widow Pension (IGNWP).
9	Circular No.17/2020/Fin dated 31 <sup>st</sup> March 2020	In addition to the aforementioned criteria, applicants whose husband is absconding for more than seven years, applicants deserted by their husbands for more than seven years and above 50 years of age are eligible for widow pension The applicants should not be remarried persons.
10	G.O. (MS) No.24/2016/Ord dated 01.03.2016.	Old-age persons after attaining the age of 75 years would get old age pension at an increased rate of ₹1,500, with effect from 1 April 2016.
11	GO (MS)No.67/2017/Fin dated 06.02.2017	Under any circumstances same type of pension shall not be allowed as second pension.
12	Circular No.69/2018/Fin dated 26/07/2018 (Finance SFC-B Department).	Instructions to all the Secretaries of LSGIs to take immediate action to suspend the deceased beneficiaries from the Sevana Pension software. The PACS after every disbursement should report the cases of deceased beneficiaries to the local bodies. The Secretaries of the local bodies after enquiry should remove the deceased beneficiaries from the list.
13	GO (MS)No.251/2019/Fin dated 03.07.2019	Beneficiaries above 60 years are exempted from submitting non-remarriage certificate.

Sl.No	G O No.	Gist
14	Letter No.189907/SFCB.2/2020-Fin dated 26.07.2021 of Finance Department, Govt. of Kerala	Direction to the Director of Panchayats, Director of Urban Affairs and Executive Director, IKM that the beneficiaries of IGNWP and Pension for Unmarried Women above 50 years should be authorised pension for July and August 2021 regardless of their submission of 'Non-remarriage Certificate'. i.e. no one should be excluded due to non-submission of the said certificate.

<b>Total</b>	<b>278</b>	<b>67.95</b>	<b>100.00</b>	<b>100.00</b>

*(Information furnished by LSGIs)*

**Appendix – VI**

**(Ref : Paragraph 2.5.4 & 2.11.3 – Page No. 17 & 30)**

**The audit recommendations of the Report of CAG of India on PA of Social Security Pension Schemes**

1. State Government should address the systemic deficiencies in augmentation and disbursement of funds and ensure regular monthly pension disbursements to beneficiaries.
2. Local bodies need to institute a process of annual verification of beneficiaries to ensure continued fulfilment of eligibility criteria. Technology could be leveraged to the extent possible. Disbursement monitoring mechanism needs to be strengthened.
3. Linkage of Aadhaar with beneficiary accounts needs to be expeditiously completed and duplicate/ ghost beneficiaries need to be weeded out on priority. Procedural issues leading to failure in crediting social security pensions to beneficiary accounts through Direct Benefit Transfer need to be addressed and resolved.
4. A system of providing mobile alerts to beneficiaries could be introduced to inform the beneficiaries of the payment credited to their accounts to enhance beneficiary convenience. Local Self Government could also harness the full potential of technology in enhancing the quality of service delivery and consider introducing mobile payments or payments through business correspondents.

## Appendix – VII

(Ref : Paragraph 2.5.6 – Page No. 18)

## District wise details of irregular payment of SSPs noticed during Beneficiary Survey

District	No. of household where Beneficiary Survey conducted	No. of cases where irregularities noticed
Idukki	159	23
Malappuram	184	25
Pathanamthitta	175	50
Thiruvananthapuram	52	22
Thrissur	202	32
<b>Total</b>	<b>772</b>	<b>152</b>

*(Information collected during Beneficiary survey)*

## Appendix – VIII

## Appendix – XI

(Ref : Paragraph 2.6.2 – Page No. 20)

## Details of Pension disbursed in respect of SSP ID -109500400174

SSP ID	DBT Reference No	Pension disbursed months	Amount disbursed ₹
109500400174	201903005	October, November 2019	1,200
	202003001	December 2019, January, February, March, April 2020	6,100
	202003004	July, August 2020	2,600
	202003005	September 2020	1,400

## Appendix – XII

(Ref: Paragraph 2.7.2 – Page No. 23)

## Details of source of funds for the period 2017-18 to 2020-21

(₹ in crore)

Source of fund	2017-18	2018-19	2019-20	2020-21
Amount received from Government of Kerala <sup>2</sup>	5,000.26	5,579.28	2,100.00	11,924.14
Amount received from Government of India <sup>3</sup>	217.51	222.00	225.66	173.98
Amount received from Director of Panchayats to KSSPL	0	0	150.00	0
Fund raised by KSSPL for disbursement of SSPs <sup>4</sup>	0	6,818.82	6,843.65	8,604.19
<b>Total</b>	<b>5,217.77</b>	<b>12,620.10</b>	<b>9,319.31</b>	<b>20,702.31</b>
<b>Total (excluding amount received from GoI)</b>	<b>5,000.26</b>	<b>12,398.10</b>	<b>9,093.65</b>	<b>20,528.33</b>
Amount transfer credited to the Director of Panchayats for disbursement of SSPs (as stated by KSSPL)	0	4,654.96	5,044.52	10,226.56
<b>Excess loan availed by KSSPL</b>	<b>0</b>	<b>6,818.82</b>	<b>4,049.13</b>	<b>8,604.19</b>

<sup>2</sup> For the year 2017-18 the Government of Kerala released their funds directly to the DBT Cell, Directorate of Panchayats and for the remaining years the funds were released to KSSPL.

<sup>3</sup> Government of India funds were released to DBT Cell, Directorate of Panchayats.

<sup>4</sup> The fund raised by KSSPL is used for disbursing SSPs, Welfare Pension, repayment of the monthly interest and principal of loan raised by KSSPL.

## Appendix – XIII

(Ref : Paragraph 2.9 – Page No. 27)

### Denial of pension to eligible beneficiaries due to erroneous bill processing

Beneficiaries of ‘Widow Pension’ and ‘Pension for Unmarried Women above 50 years’ are required to submit ‘Non-Remarriage Certificate’ every year. Finance Department, Govt. of Kerala, vide letter No.189907/SFCB.2/2020-Fin dated 26.07.2021 intimated Director of Panchayats, Urban Affairs Director and Executive Director, IKM that the date for submitting and uploading the certificate has been extended and those who completed 60 years on 31.12.2020 need not submit the certificate. It is also directed that July & August 2021 pension should also be authorised to those who could not submit ‘Non-remarriage Certificate’. i.e. no one should be excluded due to non-submission of the said certificate.

On examining the Stored Procedure ‘Billgeneration\_3.sql’ furnished to Audit it is found that the following statements mark beneficiaries as ‘Non-remarriage certificate not submitted’ except those satisfying some given conditions.

```
BEGIN TRY
set dateformat dmy
update TR_PensionerBillDBTFinal_TEMP_DBT set tnyAccountVerified=5,chvBillRemark=N'പുനർവിവാഹിത അല്ല സർട്ടിഫിക്കറ്റ്
സമർപ്പിച്ചിട്ടില്ല .'
where numPensionerID not in(
select numPensionerID FRom TR_Pension where tnyPensionTypeID in(5,6) and dtRemarriage is not null
union all
select numPensionerID FRom TR_Pension where tnyPensionTypeID in(5,6)and dtDistributionStart>'31/12/2019' and dtRemarriage is null
union all
select numPensionerID FRom TR_Pension where tnyPensionTypeID in(5,6)and (datediff(mm,TR_Pension.dtDOB,getdate())/12) >=60 and
dtRemarriage is null
union all
select numUniqueReferenceNo FRom TR_July_2015
)
and tnyPensionTypeID in(5,6) and chvBillRemark is null
END TRY
```

*(In the above sql statements Pension type 5 and 6 are Widow Pension and Unmarried women pension respectively. ‘dtRemarriage’ is date of submission of Non-remarriage certificate. ‘dtDOB’ is date of birth of beneficiary, ‘getdate()’ function gives the current date, TR\_July\_2015 is a table containing pensioner-IDs of 701642 beneficiaries)*

The above sql statment select Widow Pension and Unmarried Women pension beneficiaries satisfying the following conditions

1. Those who have submitted ‘Non-Remarriage Certificate’  
[ select numPensionerID FRom TR\_Pension where tnyPensionTypeID in(5,6) and dtRemarriage is not null ]
2. Those beneficiaries whose pension distribution started after 31/12/2019 and ‘Non-Remarriage Certificate’ not submitted.  
[ select numPensionerID FRom TR\_Pension where tnyPensionTypeID in(5,6)and dtDistributionStart>'2019-12-31' and dtRemarriage is null ]
3. Those beneficiaries who are 60 years or more on the date of processing, 26.07.2021 in this case.  
[ select numPensionerID FRom TR\_Pension where tnyPensionTypeID in(5,6) and (datediff(mm,TR\_Pension.dtDOB,getdate())/12) >=60 and dtRemarriage is null ]

4. Those beneficiaries whose beneficiary IDs are enlisted in the table TR\_July\_2015  
 [ select numUniqueReferenceNo FRom TR\_July\_2015 ]

On verifying the data made available to audit and the above section of stored procedure, Audit observed the following

1. Eligible beneficiaries excluded from payment list

From TR\_Pension table audit collected the following data

Total number of Widow Pension and Unmarried women Pension beneficiareis, who have not been suspended and eligible for payment of pension. <b>select</b> count(*) <b>from</b> TR_Pension tp <b>where</b> (tnyPermanentSusp=0 <b>or</b> tnyPermanentSusp <b>isnull</b> ) <b>AND</b> tnyPensionTypeID <b>in</b> (5,6)	1474588
From the above, number of beneficiaries exempted from marking as 'Non-remarriage certificate not submitted' as per the statements in the SP, on 26.06.2021 (the date of execution of the SP) <b>select</b> count(*) <b>from</b> TR_Pension tp <b>where</b> (tnyPermanentSusp=0 <b>or</b> tnyPermanentSusp <b>isnull</b> ) <b>AND</b> tnyPensionTypeID <b>in</b> (5,6) <b>AND</b> numPensionerID <b>in</b> ( <b>select</b> numPensionerID <b>FRom</b> TR_Pension <b>where</b> tnyPensionTypeID <b>in</b> (5,6) <b>and</b> dtRemarriage <b>isnotnull</b> <b>unionall</b> <b>select</b> numPensionerID <b>FRom</b> TR_Pension <b>where</b> tnyPensionTypeID <b>in</b> (5,6) <b>and</b> dtDistributionStart>'2019-12-31' <b>and</b> dtRemarriage <b>isnull</b> <b>unionall</b> <b>select</b> numPensionerID <b>FRom</b> TR_Pension <b>where</b> tnyPensionTypeID <b>in</b> (5,6) <b>and</b> ( <b>datediff</b> (mm,TR_Pension.dtDOB,'2021-07-26')/12) >=60 <b>and</b> dtRemarriage <b>isnull</b> <b>unionall</b> <b>select</b> numUniqueReferenceNo <b>FRom</b> TR_July_2015)	1447638
Number of beneficiaries denied pension for the months of July, August 2021, deviating from the Government direction <b>select</b> count(*) <b>from</b> TR_Pension tp <b>where</b> (tnyPermanentSusp=0 <b>or</b> tnyPermanentSusp <b>isnull</b> ) <b>AND</b> tnyPensionTypeID <b>in</b> (5,6) <b>AND</b> numPensionerID <b>notin</b> ( <b>select</b> numPensionerID <b>FRom</b> TR_Pension <b>where</b> tnyPensionTypeID <b>in</b> (5,6) <b>and</b> dtRemarriage <b>isnotnull</b> <b>unionall</b> <b>select</b> numPensionerID <b>FRom</b> TR_Pension <b>where</b> tnyPensionTypeID <b>in</b> (5,6) <b>and</b> dtDistributionStart>'2019-12-31' <b>and</b> dtRemarriage <b>isnull</b> <b>unionall</b> <b>select</b> numPensionerID <b>FRom</b> TR_Pension <b>where</b> tnyPensionTypeID <b>in</b> (5,6) <b>and</b> ( <b>datediff</b> (mm,TR_Pension.dtDOB,'2021-07-26')/12) >=60 <b>and</b> dtRemarriage <b>isnull</b> <b>unionall</b> <b>select</b> numUniqueReferenceNo <b>FRom</b> TR_July_2015)	26950

26950 eligible beneficiaries, as per the directions of Government in respect of payment of July, August 2021, were denied pension due to non application of proper conditions. It is a deviation from Government directions.

Total monthly pension required for 26950 beneficiaries (@Rs.1600 per month)	₹.4,31,20,000.
Total amount required for July and August payment	₹.8,62,40,000

## Appendix – XIV

## Appendix – XXIV

(Ref : Paragraph 3.3 – Page No. 42)

### Inadequate training, awareness of security

#### A) Format of Questionnaire

- 1) How long have you been using the Sevana Pension software?
- 2) Give the user IDs through which you login to Sevana-Pension. The purpose (data entry, authorization etc.) of each user ID may also be mentioned.  
User ID-1 :    UserID-2 :                      UserID-3:  
Purpose :    Purpose :                      Purpose :
- 3) How long have you been using the same password for accessing the Sevana Pension software?
- 4) If there are operational or technical issues in using the Sevana Pension software, to whom do you report and how long does it take to rectify the issue?
- 5) Have you ever attended any training in Sevana Pension software?
- 6) Has it ever occurred that all the approved applicants by the Council were not entered for receiving pension in the Sevana Pension software and if so why?
- 7) Are you able to view/ download any report of deceased persons after the pension distribution by PACCs is completed and have you promptly suspended the deceased persons from the database?

Name of LSG Institution :  
Name of User :  
Designation :

#### B) Findings of the survey

34 clerical users out of 37 LSG institutions have answered that they have not received any training in the usage of Sevana Pension software. When the users were asked whether they have suspended the deceased beneficiaries after downloading any reports, 3 of them replied that no such report was available in the software. 21 users replied that they have not taken any such report and have not suspended any deceased beneficiaries based on the report. Hence 24 out of 37 users (64.86%) are not aware of the batchwise report which can be generated through the menu option DBT Reports. This is due to lack of proper training of the users as 91.89% of users have not received any training in using Sevana Pension software. Further, the users were not aware of the necessity of periodical change of password.

## Appendix – XXV

(Ref : Paragraph 3.6.1 – Page No. 44)

## Details of vulnerabilities reported during security audit

SI No	Vulnerability	Risk Severity
1	Blind SQL Injection	High
2.	Cross Site Scripting	High
3.	Sensitive data exposure <ol style="list-style-type: none"> <li>1. Crackjacking:X-frame-Options header missing</li> <li>2. Cookie without HttpOnly flag set</li> <li>3. ASP.NET version disclosure</li> <li>4. Options method is enabled</li> </ol>	Low
4	Using components of known vulnerability <ul style="list-style-type: none"> <li>- Vulnerable Javascript library</li> </ul>	Medium
5	Security Misconfiguration <ul style="list-style-type: none"> <li>- Login page password-guessing attack</li> </ul>	Low

**Appendix – XXVI**

**(Ref : Paragraph 3.6.5 (a ) (i) – Page No. 48)**

**Discrepancy in age of beneficiaries**

<b>Particulars</b>	<b>Number of cases</b>
Number of beneficiaries with negative age (future date entered as date of birth)	101
Number of beneficiaries whose date of birth is not recorded	96,445

## Appendix – XXVII

**Appendix – XXVIII****(Ref : Paragraph 3.6.5 (a) (ii) – Page No. 48)****Discrepancy noticed in applications**

<b>Discrepancy noticed</b>	<b>Number of cases</b>
Distribution started before Application date	16,409
Distribution started before Approval date (after receiving application)	2,70,433
<b>Total</b>	<b>2,86,842</b>

**Appendix – XXIX**

**(Ref : Paragraph 3.6.5 (b) – Page No. 49)**

**Details of data extracted from Master file (GM\_PensionType)**

<b>tnyPensionTypeID</b>	<b>chvPensionNameEnglish</b>	<b>tnyLowerAgeLimit</b>
1	Agricultural Labour Pension	18
2	Indira Gandhi National Old Age Pension	18
3	Pension for the Mentally challenged	18
4	Pension for the Physically challenged	18
5	Pension for the Unmarried Women above 50 years	19
6	Widow Pension	20
7	Unemployment Wages	20

## Appendix – XXX

(Ref : Paragraph 3.7 – Page No. 50)

## Requirements not incorporated in the software

User requirements	Audit Remarks
<b>Clerk login</b> Need provision for entering details of manually submitted application at front office	Software does not provide for data entry of application at front office.
<b>LSGI Secretary (Approver)</b> Need option for digital signature for approval, correction, suspension, revoking etc for validating records	There are no independent digital signatures for approval, correction, suspension, revoking etc for validating records. Presently, these digital signatures and its date are overwritten during each process which lead to loss of critical information, useful for tracing user activities.
<b>DBT Cell</b> There shall be provision to prepare requisition on the basis of conditions laid down by finance department	At present it is done by IKM at back end using stored procedure
Need provision for bill generation process (like file generation, despatch etc,) There shall be provision for generating pension type wise payment file	During physical verification of billing process, it is noticed that the file generation is not automated. IKM need to push the files to make it downloadable by DBT Cell. Despatch of digitally certified payment files are done manually through email, to IKM and IKM upload them manually to the bank server
Need provision for reconciliation	IKM stated that reconciliation is partially automated. However, it is noticed on physical verification that reconciliation is done by IKM using some back-end processes.
Need provision to mark the status (fund return/ success)	-do-
<b><u>System Features requirements</u></b>	
Application for social security pension can be submitted through front office	Application at front office is not entered in the system software.
There shall be provision in the software to validate Aadhaar number of the applicant to avoid duplication.	Aadhaar validation is not being done properly. There are beneficiaries with same Aadhaar number and different names.
<b><u>Eligibility criteria<sup>6</sup></u></b>	
<b>General Eligibility Criteria</b> Applicant should not be a service pensioner/ family pensioner	Service pensioners are made beneficiaries.
Applicant should not own non-taxi, four or more wheeled vehicles (Except Ambassador car) with engine capacity of more than 1000 cc	The condition of 'Ambassador car' is not incorporated
<b>ALP</b> Age of 60 years or higher	

<sup>6</sup> Vide GO(MS) No. 97/2020/Finance dated 23 September 2020.

<p><b>OAP</b> Age of 60 years or higher</p> <p><b>UMWP</b> Age should be 50 years and above</p>	<p>Audit noticed that age and date of birth values are not validated during input.</p>
<p><b>Non-functional requirements<sup>7</sup></b></p>	
<p><b>Security and privacy</b></p>	
<p><b>Security</b></p>	
<p>Easy provision for backing up sevana pension data by providing a menu option for each local body.</p>	<p>No backup option available in the software.</p>
<p>Data shall be maintained within the database in an encrypted format.</p>	<p>Data not in encrypted form. Even the user passwords are available in non-encrypted form. Aadhaar number is made encrypted recently, after audit comments during a meeting with technical personnel from IKM.</p>
<p><b>Privacy</b></p>	
<p>Access to the software by use preferably by thumb scan device.</p>	<p>Fingerprint scan is not made available for user authentication.</p>
<p>Data approval shall be done by the Secretary only by digital signature &amp; thumb scan.</p>	<p>Fingerprint scan is not made available for approval.</p>
<p><b>Quality</b></p>	
<p>Data quality ensured by Local Body</p>	<p>The developer transfers the responsibility of data quality to the user department, instead of applying proper data validation within the software.</p>
<p><b>Reliability</b></p>	
<p>Reliability is the probability that the system processes work correctly and completely without being aborted. The harm that can result from failure of this application is as follows:</p> <ul style="list-style-type: none"> <li>• Social security pension disbursement will come to a halt.</li> <li>• Amount to be disbursed cannot be calculated to an exact amount, thereby hindering the Finance department in allocating funds.</li> <li>• Revenue loss will occur</li> <li>• Employee's productivity will be held up.</li> <li>• Accountability will be lost.</li> </ul>	<p>In respect of reliability, Audit noticed the following:</p> <p>Data available are not reliable and this lead to erroneous computation and distribution of SSP on multiple occasions.</p> <p>Lack of reliability in data processing was also noticed by Audit, in bill processing performed by IKM, where there is excessive manual intervention.</p>

## Screenshots of the reports which do not work properly

## State Level Bank wise Beneficiary Count

The screenshot shows a web browser window with the address bar displaying `welfarepension.lsgkerala.gov.in/StatelevelBankwiseBenfCount.aspx`. The page content displays a red error message: "Server Error in '/' Application." Below this, it states "The resource cannot be found." and provides a description: "Description: HTTP 404. The resource you are looking for (or one of its dependencies) could have been removed, had its name changed, or is temporarily unavailable. Please review the following URL and make sure that it is spelled correctly." The requested URL is `/StatelevelBankwiseBenfCount.aspx`. At the bottom, version information is provided: "Version Information: Microsoft .NET Framework Version 2.0.50727.8813; ASP.NET Version 2.0.50727.8951".

## Local body type wise – Local body wise Beneficiary Count

The screenshot shows a web browser window with the address bar displaying `welfarepension.lsgkerala.gov.in/Rpt_StateDistrictLBtypeAccountModBenfCount.aspx`. The page content features the logo of the Information Kerala Mission (IKM) with the text "സേവന പെൻഷൻ" and "സോഷ്യൽ സെക്യൂരിറ്റി സീഡ്". Below the logo, there is a message: "The page you're looking for is temporarily unavailable to view. It is possible that this page has been moved or renamed. You can use your browser's Back button to return to the previous page, go to the homepage, or you can browse or search for the information you're looking for." At the bottom, there is a footer: "Content owned, maintained and updated by: Respective Local Government Institutions. Designed, developed and maintained by: Information Kerala Mission, Network services by: State e-governance data centre."
