

06th International Training Programme on “Audit of Extractive Industries”

Part I from 08 to 12 December, 2025

The International Centre for Environment Audit & Sustainable Development (iCED), functioning as the Global Training Facility (GTF) of the INTOSAI Working Group on Audit of Extractive Industries (WGEI), organized Part I of the 06th International Training Programme (ITP) on “Audit of Extractive Industries” in virtual mode from 08 to 12 December 2025. The programme was attended by 57 participants from 19 Supreme Audit Institutions (SAIs) across the globe.

Dr. Abhishek Gupta, Director General of iCED, inaugurated the ITP and underscored the importance of collaborative initiatives in strengthening the audit capacities of SAIs, particularly in developing robust frameworks for auditing extractive industries.

Dr. Abhishek Gupta, Director General iCED and Director (Training & Research), iCED during the inauguration of the International Training programme

Dr. Gupta highlighted the critical role of extractive industries in both global and national economies, while emphasizing the need for transparency, accountability, environmental stewardship, and social responsibility, given the sector's significant environmental and social impacts. He stressed the growing importance of audits in the extractive sector and the unique role of Supreme Audit Institutions in enhancing governance and ensuring the responsible management of natural resources.

He further informed that the programme focused on Module 5 of the WGEI Training Framework, which covers Monitoring and Evaluation in Extractive Industries.

The inaugural session concluded with expressions of gratitude to Mr. Edward Akol, Chair of INTOSAI WGEI and Auditor General of Uganda, and his team for their support in organizing the programme. Special thanks were also extended to all participating SAIs for nominating their officers.

During the programme, experts from the Petroleum Authority of Uganda, BPK Indonesia, SAI Zambia and other reputed institutions from India shared their insights through presentations and relevant case studies, covering various dimensions of monitoring and evaluation in extractive industries. The session-wise details are given below:
