NOTES AND COMMENTS

- (i) The excess of $\stackrel{?}{\stackrel{\checkmark}{=}}$ 63,08,76,752 over the Capital Section in the voted provision requires regularisation.
- (ii) In view of the final saving of ₹ 77,65.11 lakh in the voted provision in the Revenue Section, the supplementary grant of ₹ 52,79.24 lakh obtained in March 2016 proved unnecessary as even the original grant remained substantially unutilized and the surrender of ₹ 3,45,66.90 lakh proved unrealistic.
- (iii) In view of the final excess of ₹ 63,08.77 lakh in the voted provision in the Capital Section, the supplementary grant of ₹ 70,68.91 lakh obtained in March 2016 proved inadequate.
- (iv) There was an overall saving of ₹ 3,79.54 lakh in the charged appropriation in the Capital Section but no amount was surrendered by the department during the year.
- (v) In view of the final saving of ₹ 3,79.54 lakh in the charged appropriation in the Capital Section, the supplementary grant of ₹ 40,55.81 lakh obtained in March 2016 proved excessive.
- (vi) The entire provision of ₹ 9.07 lakh in the charged appropriation in the Revenue Section remained unutilized but no amount was surrendered by the department during the year. This points out the need for more accurate budgeting and better control over expenditure.

(xiii) Suspense Transactions

The expenditure under this grant includes ₹ 5,53,69.28 (₹ 5,53,69.28 lakhs in the Revenue Section and ₹ 0 in the Capital Section) accounted for under minor head "Suspense".

This head is not a final head of account but is meant to accommodate certain interim transactions for which further payment or adjustment of value is necessary before the transaction could be considered complete and finally accounted for. Accordingly, the transactions under this head, if not adjusted under the final head of account, are carried forward from year to year. The Suspense head has three sub-divisions;

(i) Stock, (ii) Miscellaneous Works Advances and (iii) Workshop Suspense.

The nature and accounting of the transactions under each of these sub-divisions are explained below:-

(i) Stock-

This sub head is debited with the value of materials acquired not for any particular work but for the general use of the divisions. It is credited with the value of materials issued to works or transferred to other divisions or otherwise disposed off. This sub-head will, therefore, show a debit balance representing the value of materials held in stock plus unadjusted charges connected with manufacture, if any.

(ii) Miscellaneous Public Works Advances -

This sub-head accommodates debits for the stocks sold on credit; expenditure incurred on deposit works in excess of deposits received, payment made for stores not yet received, losses of cash or stores not written off and sums recoverable from Government servants, etc. A debit balance, thus represents recoverable amount.

(iii) Workshop Suspense -

This sub-head is debited with all charges on the jobs or other operations in departmental workshops. On the completion of a job, the charges concerning that job, debited to this sub-head are cleared by recovery or transfer to the final head concerned. Debit balance under this head thus, represents charges on unfinished jobs/operations or the expenditure on jobs, etc., not recovered or adjusted.

An analysis of the "Suspense" transactions accounted for under this grant during 2015-16 with the opening and closing balances under the different sub-heads is given below:-
