This compilation containing the Appropriation Accounts of the Government of Maharashtra for the year ending 31st March 2010 presents the accounts of the sums expended in the year compared with the sums specified in the schedules appended to the Appropriation Acts passed under Articles 204 and 205 of the Constitution of India. The Finance Accounts of the Government for the year showing the receipts and disbursements of the Government for the year together with the financial results disclosed by the revenue and capital accounts, the accounts of the public debt and the liabilities and assets as worked out from the balances recorded in the accounts are presented in a separate compilation.

The Appropriation Accounts have been prepared under my supervision in accordance with the requirements of the Comptroller and Auditor General's (Duties, Powers and Conditions of Service) Act, 1971 and have been compiled from the vouchers, challans and initial and subsidiary accounts rendered by the treasuries, offices, and departments responsible for the keeping of such accounts functioning under the control of the Government of Maharashtra and the statements received from the Reserve Bank of India.

The treasuries, offices, and or departments functioning under the control of the Government of Maharashtra are primarily responsible for preparation and correctness of the initial and subsidiary accounts as well as ensuring the regularity of transactions in accordance with the applicable laws, standards, rules and regulations relating to such accounts and transactions. I am responsible for compilation, keeping of the accounts, preparation and submission of Annual Accounts to the State Legislature. My responsibility for the compilation, preparation and finalization of accounts is discharged through the office of the Principal Accountant General (A&E). The audit of these accounts is independently conducted through the office of the Principal Accountant General (Audit) in accordance with the requirements of Articles 149 and 151 of the Constitution of India and the Comptroller and Auditor General's (Duties, Powers and Conditions of Service) Act, 1971, for expressing an opinion on these Accounts based on the results of such audit. These offices are independent organizations with distinct cadres, separate reporting lines and management structure.

The audit was conducted in accordance with the Auditing Standards generally accepted in India. These Standards require that we plan and perform the audit to obtain reasonable assurance that the accounts are free from material misstatement. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements.

On the basis of the information and explanations that my officers required and have obtained, and according to the best of my information as a result of test audit of the accounts and on consideration of explanations given, I certify that, to the best of my knowledge and belief, the Appropriation Accounts read with observations in this compilation give a true and fair view of the accounts of the sums expended in the year ended 31st March 2010 compared with the sums specified in the schedules appended to the Appropriation Acts passed by the State Legislature under Articles 204 and 205 of the Constitution of India.

3. **Maharashtra Government Insurance Fund :-** The Government Insurance Fund was established in the year 1951 with a view to provide general insurance services to the insuring departments of the State Government particularly, the commercial/ and or industrial undertakings which ordinarily have to insure their property according to normal trade and commercial practices. The Insurance Fund was administered by the Finance Department directly.

With the passage of time the insurance business transacted by the Insurance Fund grew to a substantial extent and then for the sake of smooth working of the Insurance Fund a separate Directorate of Insurance was established by the State Government on 1st September 1972 for the purpose of administering the Government Insurance Fund.

The Government Insurance Fund endeavors to render efficient service to the Insuring Department, Corporations and other Statutory Bodies of the State Government. The revenue by way of premium earned by the Government Insurance Fund beyond certain limits is transferred to the general revenues of the State Government. Thus the excess of premium over the claims and expenses of the Government Insurance Fund are ploughed back for the purpose of the development of the State. Further, the entire expenditure on the management of General Insurance Fund is to be met from this Fund. Accordingly, expenditure of ₹ 2680.49 lakh has been transferred to the fund during the year 2009-2010. There is balance of ₹ 20402.24 lakh in the fund as on 31^{st} March 2010. The account of receipt and payment of the fund during the year is included in Statement No. 18 of Finance Accounts.

Fund amounting to ₹25.48 lakh was augmented under above sub heads in March 2010 without assigning any reasons.

 Excess expenditure of ₹ 1,20.90 lakh (actual excess of ₹ 1,20,90,324) over appropriation requires regularization. In view of final excess of ₹ 1,20.90 lakh under appropriation, supplementary provision of ₹ 89.02 lakh made during the year proved inadequate and surrender of funds of ₹ 12.59 lakh proved unrealistic.

7. Excess in the appropriation occurred under :-

8. Suspense Transactions – The expenditure under the grant includes ₹ 1,79.86 lakh booked under 'Suspense'. This head is not a final head of account. It accommodates interim transactions where further payments or adjustments of value are essential before the transaction can be considered complete and finally accounted for. The transactions under this head, if not adjusted to the final head of account, are accordingly carried forward from year to year. The transactions embrace both debits and credits. The demands for grants however exclude credits and are for the gross debits only. These transactions are accounted for under the following five sub divisions :-

- (a) Purchases
- (b) Stock
- (c) Miscellaneous Public Works Advances
- (d) Workshop Suspense
- (e) Cash Settlement Suspense Account

The nature and accounting procedure of transactions under each of these divisions are explained below:-

(a) **Purchases :** On receipt of materials purchased or transferred from another division or department for a specific work or stock, their value, pending actual payment or adjustment is credited to "Purchases" by per contra debit to "Stock/work" as the case may be. When the payment is made or the value is adjusted, the sub head is minus credited with the amounts thereby clearing the previous credits. The head "Purchases", will therefore, show a credit balance representing the value of the materials received but not paid for or adjusted.

(b) Stock :- This sub head is debited with the value of materials, which are required not for any particular work, but for the general use in the divisions or for stock. It is credited with the value of materials issued to work, sold, transferred or otherwise disposed off. The debit balance under this sub head represents the book value of the materials in stock plus the unadjusted charges connected with manufactured plus the unadjusted expenditure on storage.

(c) Miscellaneous Public Works Advances :-

This head records –

(i) Value of stores sold on credit

(ii) Expenditure incurred on deposit works in excess of deposit received or in anticipation of receipt of money.

(iii) Losses, Retrenchments, Errors etc. and

(iv) Other items - e.g. Debit, the allocation of which is not known or which cannot be adjusted until recovery or settlement is effected or written off.

(d) Workshop Suspense :

(1) The charges for jobs executed for other operations in departmental workshops are debited to this sub head pending their recovery or adjustment.

(2) On completion of a job all outstanding charges on it should be debited as soon as possible to the head of account concerned, but in cases where this cannot be done, the unadjusted amount should be transferred to the head 'Miscellaneous Public Works advances' and

(3) A debit balance under the head, therefore, represents expenditure on jobs in progress at the end of the year.

(e) Cash Settlement Suspense Account :- The transactions of settlement of payments on account of supply of stores, execution of works or services rendered, by one division on behalf of another division rendering accounts to the same Accountant General, are covered under this sub head. This sub head is debited by indenting division as per value of invoice making advances payment to supplying divisions. When store is received, the sub head is cleared by debit to stock and minus debit to this sub head. Thus previous debit stands cleared. There should be no demand of funds under "Suspense-Cash settlement Suspense Account". Adjustment of all items under this sub head during the same year would be compulsory, and the sub head should exhibit 'Nil' balance on 31st March every year.

9. An analysis of suspense transactions in the grant during the year 2009-10 is given below :-
