The Developers will be engaged for the development of the Gazetted Entitlement Management System (GEMS). Detailed information regarding eligibility criteria, remuneration, and the scope of work is provided below:

Sl.No	Minimum work Experience	Level	Rate	Qty	Duration
1	1 Year	2	37,972.00	2	12 Months
2		3	43,396.00	2	12 Months

1.Engagement Type: Full-time contract for one year.

2.Educational Qualifications and Required Technical Skills:

a. Candidates with B.E./B.Tech/M.Tech (CS/CE), M. Sc (Computer Science/IT), MCA, from a recognized university or Institute.

b. Certifications in Java, Spring, React, or DevOps tools are preferred but not mandatory.

3. Required Technical Skills:

i. Hands-on experience building and deploying end-to-end web applications

ii. Exposure to system design concepts and ability to contribute to architectural discussions.

iii. Proficient in Java (OOP concepts, Streams, Optionals, etc.)

iv. Strong experience with Spring Boot (JPA, REST, Validation, etc.)

v. Proficiency in React and TypeScript

vi. Good understanding of HTML, CSS, and modern JavaScript

vii. Experience designing scalable and well-structured database schemas, with a solid grasp of normalization, relational constraints, indexing, and query optimization.

viii. Familiarity with Podman or Docker containerization.

ix. Version control using Git.

x. Ability to write unit/integration tests using JUnit, Mockito, or equivalent.

xi. Use of Postman, Swagger/OpenAPI for testing and documentation.

xii. Experience with event-driven micro services and message brokers (Kafka/RabbitMQ).

4.Scope of work:

The Full Stack Developer will be responsible for the design, development, testing, and deployment of both backend services and frontend components within a micro services-based application. The developer will work closely with teammates to ensure consistency, maintainability, and performance of the application.
